FORM 7

MONTHLY PROGRESS REPORT

Name of Listed Issuer: Super Copper Corp. (the "**Issuer**").

Trading Symbol: CUPR

Number of Outstanding Listed Securities: 54,478,594 (as of April 30, 2026)

Date: May 5, 2026

This Monthly Progress Report must be posted before the opening of trading on the fifth trading day of each month. This report is not intended to replace the Issuer's obligation to separately report material information forthwith upon the information becoming known to management or to post the forms required by Exchange Policies. If material information became known and was reported during the preceding month to which this report relates, this report should refer to the material information, the news release date and the posting date on the Exchange website.

This report is intended to keep investors and the market informed of the Issuer's ongoing business and management activities that occurred during the preceding month. Do not discuss goals or future plans unless they have crystallized to the point that they are "material information" as defined in the Policies. The discussion in this report must be factual, balanced and non-promotional.

General Instructions

(a) Prepare this Monthly Progress Report using the format set out below. The sequence of questions must not be altered nor should questions be omitted or left unanswered. The answers to the items must be in narrative form. State when the answer to any item is negative or not applicable to the Issuer. The title to each item must precede the answer.

(b) The term "Issuer" includes the Issuer and any of its subsidiaries.

(c) Terms used and not defined in this form are defined or interpreted in Policy 1 – Interpretation and General Provisions.

Report on Business

1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.

   Super Copper is a mining exploration company focused on the acquisition, exploration and development of copper and precious metal projects. It is currently developing its joint venture in a prospective Chilean copper property located within the copper-rich Venado Formation in the province of Atacama, Northern Chile, a region with world-class infrastructure and the presence of global majors.

2. Provide a general overview and discussion of the activities of management.

During the month of April 2026, management of the Issuer commenced planning of a follow-up diamond drill program at El Alto to test its high chargeability anomalies at depth. The drill program is targeted for Q2 2026.

3. Describe and provide details of any new products or services developed or offered. For resource companies, provide details of new drilling, exploration or production programs and acquisitions of any new properties and attach any mineral or oil and gas or other reports required under Ontario securities law.

On April 9, 2026, the Issuer announced that the induced polarization ("**IP**") survey at the Cordillera Cobre Project near Copiapo, Chile has defined a kilometre-scale potential sulphide corridor characterized by strong, coherent chargeability responses.

Highlights included:

- Kilometre-scale copper bearing trend defined at El Alto and coincident with higher chargeability expression at depth in five consecutive IP lines (Lines 2800–3600) spaced 200 metres apart, demonstrating strong lateral continuity over a minimum 800 m of strike, open along strike and at depth.
-
- Consistent high chargeability anomalies atEl Alto identified at depth, measuring up to ~400 m in width and ~300–400 m in vertical extent, with increasing chargeability towards the southeast and at depth.

- Chargeability responses ranging from >0.5 to >5.0 mV/V, consistent with copper-bearing systems in Chile's Atacama belt.

- Historical diamond drilling confirms copper mineralization at the margins of the IP corridor, validating the geophysical interpretation. Highlight intercepts from newly sampled core include:
    - 14m at 0.508% Cu, including 2m at 1.605% Cu (DVP-01)
    - 10m at 0.324% Cu, including 2m at 1.36% Cu (DVP-02)
    - 8m at 0.216% Cu, including 1m at 1.365% Cu (DVP-03)
    - 4m at 0.493% Cu (DVP-06)

- Historical holes intersected only upper and peripheral portions of the chargeability anomalies, while the highest-intensity chargeability zones at depth remain entirely untested.

- Integrated IP and ground magnetic data define a structural corridor extending for over one kilometre, providing a clear vector for the Company's planned 2026 diamond drill program targeting the interpreted core of the sulphide system.

Please refer to the Issuer's news release dated April 9, 2026 for additional details.

4. Describe and provide details of any products or services that were discontinued. For resource companies, provide details of any drilling, exploration or production programs that have been amended or abandoned.

Not applicable.

5. Describe any new business relationships entered into between the Issuer, the Issuer's affiliates or third parties including contracts to supply products or services, joint venture agreements and licensing agreements etc. State whether the relationship is with a Related Person of the Issuer and provide details of the relationship.

On April 8, 2026, the Issuer announced that it engaged Emerging Markets Consulting LLC to provide investor awareness and communications services pursuant to a marketing and investor relations agreement for a term of four months commencing on or about April 7, 2026. In consideration for the services, the Issuer will pay Markets Consulting LLC a fee of US$250,000.

Please refer to the Issuer's Form 10 *Notice of Proposed Significant Transaction* dated April 8, 2026 for additional details regarding the services to be provided by Emerging Markets Consulting LLC.

6. Describe the expiry or termination of any contracts or agreements between the Issuer, the Issuer's affiliates or third parties or cancellation of any financing arrangements that have been previously announced.

Not applicable.

7. Describe any acquisitions by the Issuer or dispositions of the Issuer's assets that occurred during the preceding month. Provide details of the nature of the assets acquired or disposed of and provide details of the consideration paid or payable together with a schedule of payments if applicable, and of any valuation. State how the consideration was determined and whether the acquisition was from or the disposition was to a Related Person of the Issuer and provide details of the relationship.

Not applicable.

8. Describe the acquisition of new customers or loss of customers.

Not applicable.

9. Describe any new developments or effects on intangible products such as brand names, circulation lists, copyrights, franchises, licenses, patents, software, subscription lists and trade-marks.

Not applicable.

10. Report on any employee hirings, terminations or lay-offs with details of anticipated length of lay-offs.

Not applicable.

11. Report on any labour disputes and resolutions of those disputes if applicable.

Not applicable.

12. Describe and provide details of legal proceedings to which the Issuer became a party, including the name of the court or agency, the date instituted, the principal parties to the proceedings, the nature of the claim, the amount claimed, if any, if the proceedings are being contested, and the present status of the proceedings.

Not applicable.

13. Provide details of any indebtedness incurred or repaid by the Issuer together with the terms of such indebtedness.

Not applicable.

14. Provide details of any securities issued and options or warrants granted.
