### NEWS RELEASE

#### **Glorious Creation Limited Announces Commencement of China-Vietnam Trading Platform**

**Vancouver, BC, Canada, July 9, 2018** – **Glorious Creation Limited** (CSE: GCIT) (the “**Company**” or “**Glorious**”) is pleased to announce the commencement of shipping of Vietnam Arabica coffee beans to Shenzhen, China. This first batch will be for 16 tonnes of which more regular shipment is expected. The Company expects to ship \$200,000 USD worth of beans every two months, with more business opportunities and other commodities in the works.

This marks the first shipment of commodities and agricultural products between China and Vietnam using Glorious’s Blockchain Virtual Cross Border platform (“VCBBP”) which the Company believes is unique in the market. The platform provides ease of payment, quality assurance, accounting, and management of sales of products between small medium enterprises (SME) in both countries. Vietnamese traditional agricultural producers currently have limited experience with international buyers including those from China, therefore Glorious is in a unique position of trust and experience in country to facilitate these trades.

Vietnam has been growing its export of goods at a rapid pace as an emerging South Asian economy, exporting over \$214 billion USD in goods in 2017 from just \$48 billion in 2007, representing a 16% compounded annual growth rate (CAGR). China represented over \$37 billion of this figure in 2016<sup>1</sup> of which capital machines, food products, and consumer goods represented over 68%.

Yuk Kan Kong, the Company’s CEO, states: “This shipment marks the proof of concept of our VCBBP platform and the tremendous demand for quality commodities in China around the Southeast Asia region, especially Vietnam, in which Glorious has a tremendous first mover advantage. As quality of life and wages increase in China and the population shifts to a consumer based economy, the country is seeking nearby developing nations for labor and raw materials, we believe Vietnam and other Southeast Asian countries is well positioned in this regard. Glorious aims to capture this fast growing trade surplus and generate fees from providing an efficient and trustworthy trade platform. Going forward, we expect to issue utility token and blockchain-powered smart contract utilities to the system to provide further value for our clients.”

#### **About Glorious**

Glorious is a Canadian company, incorporated under the *Canada Business Corporations Act*. Through its subsidiaries in Hong Kong, Vietnam and China, and network of business partners, the Company provides commercial services for foreign enterprises seeking ready access to the growing market for consumer and industrial goods in Vietnam. The Company helps its clients to develop Southeast Asian market by providing a range of services including access to the Maritime Silk Road online marketplace, shipping logistics, payment processing, warehousing and distribution of goods, marketing, promotion and sales support. Glorious provides a low cost, fast, effective and reliable bridge for small and medium sized enterprises (“SMEs”) to enter Vietnam and other ASEAN (Association of South East Asian Nations) economies. The Company is an international trade consultant and IT systems developer, and it has two core business lines:

- International trade agency and consulting – providing marketing and sales support, logistics and administrative services, and access to various government licenses essential for doing business in Vietnam. Glorious has substantial experience in the “green” building products sector and smart building technology and systems.
- Virtual Cross Border Business Platform (“VCBBP”) - an E-commerce platform that provides all the IT services and logistics management for the execution of commerce across national borders and multiple currencies. The VCBBP also provides a B2B online marketplace for linking SMEs in southern China and southern Vietnam.
