

XTRACTION SERVICES ANNOUNCES SALE OF NON-ESSENTIAL EQUIPMENT AND BUY-BACK OF 13.4% OF XS' OUTSTANDING SHARES

Not for Distribution to U.S. Newswire Servicers or For Dissemination in the United States

LOS ANGELES, January 6, 2020 -- Xtraction Services Holding Corp., ("**Xtraction Services**", "**XS**" or the "**Company**") (CSE:XS) a specialty finance company engaged in equipment leasing in the United States, announced today that effective December 31, 2019, the Company has completed a transaction (the "**Transaction**") with a vendor and former partner and its staff (together, the "**Vendors**"), whereby all of the securities of Xtraction Services held by the Vendors (being, Proportionate Voting Shares, the "**Voting Shares**", Subordinate Voting Shares, the "**Common Shares**", and incentive stock options the "**Options**") have been exchanged for non-essential equipment and parts inventory previously purchased by the Company (collectively, the "**Transferred Equipment**").

This particular vendor partnership commenced in 2017 as an exclusive relationship; however, Xtraction Services has since expanded its vendor network to include a number of established and well-known equipment manufacturers and distributors to provide customers with tailored financing solutions. With the Company focused on new equipment leases and sale-leasebacks, and not a business model that includes equipment distribution, the Transferred Equipment is considered non-essential. Accordingly, the exchange of this non-essential equipment for significant ownership in Xtraction Services is believed to be highly accretive. This transaction allows the Company to reduce associated costs with holding such inventory while also reducing the number of its outstanding Common Shares by approximately 13.4% (assuming conversion of the Voting Shares).

David Kivitz, Chief Executive Officer of XS commented, "The ability to trade spare equipment inventory, which is no longer essential to our operations, for equity ownership in the Company, reduces on-going operating costs and monetizes the equipment in exchange for our shares, which we feel are undervalued. As a result, our shareholders will have increased ownership in a growing company with expanding cash flows and accelerating leasing momentum".

"With over 70 OEM vendors in our Preferred Vendor Program, we offer highly tailored solutions for our customers sourced from a wide variety of equipment manufacturers from across the United States. Furthermore, our sale-leaseback model provides our customers with added flexibility and capital allocation power, without any disruptions to their day-to-day operations by financing equipment they already have on hand. We are very pleased with the progression of the business and look forward to reporting on new equipment leases and additional advancements as information becomes available."

Upon completion of the Transaction, Xtraction Services has received 5,888,828 Voting Shares, 622,631 Common Shares, and 600,000 Options, which will subsequently be cancelled. Once the traded securities have been cancelled, Xtraction Services new share structure will be as follows:
