

FORM 7

MONTHLY PROGRESS REPORT

Name of Listed Issuer: Advantagewon Oil Corp. (the "Issuer").

Trading Symbol: AOC

Number of Outstanding Listed Securities: 213,408,146 Common Shares (As At April 5th, 2019)

Date: April 5th, 2019

This Monthly Progress Report must be posted before the opening of trading on the fifth trading day of each month. This report is not intended to replace the Issuer's obligation to separately report material information forthwith upon the information becoming known to management or to post the forms required by Exchange Policies. If material information became known and was reported during the preceding month to which this report relates, this report should refer to the material information, the news release date and the posting date on the Exchange website.

This report is intended to keep investors and the market informed of the Issuer's ongoing business and management activities that occurred during the preceding month. Do not discuss goals or future plans unless they have crystallized to the point that they are "material information" as defined in the Policies. The discussion in this report must be factual, balanced and non-promotional.

General Instructions

- (a) Prepare this Monthly Progress Report using the format set out below. The sequence of questions must not be altered nor should questions be omitted or left unanswered. The answers to the items must be in narrative form. State when the answer to any item is negative or not applicable to the Issuer. The title to each item must precede the answer.
- (b) The term "Issuer" includes the Issuer and any of its subsidiaries.
- (c) Terms used and not defined in this form are defined or interpreted in Policy 1 – Interpretation and General Provisions.

Report on Business

1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.

Advantagewon is focused on building consistent cash flow from low cost, low risk oil wells in the State of Texas. AOC applies specialized expertise to increase oil recovery from 10-15% to up to 75% for each well. Once the enhanced recovery strategy is successfully applied, AOC will repeat the

process throughout the oil pool to maximize output and minimize cost and risk. For the month stated in this report, the Corporation continued its business development objectives of developing its current properties, seeking additional properties, increasing the Corporation's corporate brand awareness and corporate profile to the capital markets.

2. Provide a general overview and discussion of the activities of management.

Management continued its corporate and business development endeavours as stated in point #1 of this form.

March 28th, 2019 – Advantagewon provided an update on operations with V2H USA Inc., ("V2H") whereby the Corporation has provided and had prepared two of the Corporation's existing wells, and V2H will re-enter these two wells and perform Radial Jet Drilling service on them at no cost to the Corporation. Two of the Corporation's wells have been prepared for V2H, and V2H has equipment on site and is preparing to commence Radial Jet Drilling. V2H's Radial Jet Drilling operations are expected to commence within the next three business days and operations are scheduled to be completed on or before April 10, 2019. Evaluation of the result should be complete by April 24, 2019. As previously announced via press release back on February 25, 2019, V2H's technology tools have been specifically developed for sandstone reservoirs such as AOC's current shallow oil reservoirs with the goal of improving rates of oil production. The method employed, drills horizontally in 4 directions (limited to 3 directions on 4-1/2" casing diameter, due to casing integrity) on multiple horizons from an existing vertical well bore. This provides the advantages of a true horizontal well without the cost and complication of drilling horizontally and can be employed in existing vertical wells. The penetration of formation in multiple directions on multiple horizons, along with Measurement While Drilling (MWD) and steering capabilities, allows for additional flexibility and targeted reservoir connectivity than that of conventional perforating methods. The function and purpose of this specialized service, is to greatly increase the ability of oil to flow from the reservoir into the well bore. V2H is a technology development company that partners with oil and gas producers, service companies, governments, private equity groups and other organizations in the oil and gas industry to help them deliver its step change Radial Drilling Technology. For more information please visit www.v2hinternational.com

March 22nd, 2019 – Advantagewon provided an update on the Corporation's 2019 Drilling Program. The Corporation stated that site preparation was completed on March 17th, 2019 and the drilling rig arrived on site, as scheduled, on March 18th, 2019. Drilling commenced on March 19th. The Corporation that it would next update the markets when drilling has reached the programmed total depth.

March 14th, 2019 – Advantagewon announced that the Corporation had signed a contract and secured the drilling rig for the purpose of commencement of drilling the first well of the Corporation's 2019 Drilling Program. The first well targeted multiple shallow sands on land that is currently producing oil from these zones. The zones targeted include the deeper Poth B zone proven to be oil bearing by a completion of an existing well on this lease as announced October 31st, 2018 as well as the established shallower oil bearing Poth A zone. All drilling permits have been secured, and site preparation for the drilling began on March 14th, 2019. The drill rig was scheduled to mobilize to the drilling location and commence drilling between March 18th and March 20th, 2019. The Corporation anticipates initial flow rates between 10 to 20 barrels of oil per day from this initial well. Drilling, casing, completion and equipping of the well is expected to be complete by April 10th, 2019.

Describe and provide details of any new products or services developed or offered. For resource companies, provide details of new drilling, exploration or production programs and acquisitions of any new properties and attach any mineral or oil and gas or other reports required under Ontario securities law.
