Report on Business

1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.

The following are summaries of news releases of the Issuer released during the month. For complete details all news releases of the Issuer are available on SEDAR at www.sedar.com.

On December 6, 2017, the Issuer announced that its survey division, Pioneer Aerial Surveys ("Pioneer Aerial") has received authorization from Transport Canada to conduct night UAV operations in every jurisdiction across Canada except Quebec, where the application is currently still being processed.

The night operations are significant to Pioneer Aerial, as the geophysical survey services will not be affected by shorter daylight hours during the winter months in Canada. Pioneer Aerial is working throughout Canada during the winter as this division of Global UAV continues to grow. The Company now operates 5 UAV'S and has expanded its fleet with an order of 3 additional drones from Global UAV's manufacturer, NOVAerial. The weatherproof, night flight capable, NOVAerial helicopters and multi rotor UAV systems will provide further advantages such as the ability to fly in harsh environments, with an increased range and payload over the current UAV'S in use.

In addition, Global UAV has begun working with Transport Canada on Beyond Visual Line of Sight ("BVLOS") flight approval for Pioneer Aerial. Further information on this front will be released as progress and developments occur.

"The night operation approvals are very significant for our geophysics survey division. The geophysical survey methods and sensor technology does not need light to operate, and it benefits from night operations due to more stable air, calm weather conditions, and less solar storm noise. The result is better data quality and increased productivity. As we work toward BVLOS approval, the night operations authorization provides the flexibility to significantly grow our operations in Canada where we remain the leader in this space." Stated CEO of Global UAV Technologies Ltd., Michael Burns

2. Provide a general overview and discussion of the activities of management.

Management has actively been working with its subsidiaries to increase efficiencies and revenue.

3. Describe and provide details of any new products or services developed or offered. For resource companies, provide details of new drilling, exploration or production programs and acquisitions of any new properties and attach any mineral or oil and gas or other reports required under Ontario securities law.

4. Describe and provide details of any products or services that were discontinued. For resource companies, provide details of any drilling, exploration or production programs that have been amended or abandoned.

No work has been performed on the Company's exploration properties in Mexico for over a year.

5. Describe any new business relationships entered into between the Issuer, the Issuer's affiliates or third parties including contracts to supply products or services, joint venture agreements and licensing agreements etc. State whether the relationship is with a Related Person of the Issuer and provide details of the relationship.

The Issuer signed consulting agreements with the following companies during the month:

- N/A

6. Describe the expiry or termination of any contracts or agreements between the Issuer, the Issuer's affiliates or third parties or cancellation of any financing arrangements that have been previously announced.

None to Report

7. Describe any acquisitions by the Issuer or dispositions of the Issuer's assets that occurred during the preceding month. Provide details of the nature of the assets acquired or disposed of and provide details of the consideration paid or payable together with a schedule of payments if applicable, and of any valuation. State how the consideration was determined and whether the acquisition was from or the disposition was to a Related Person of the Issuer and provide details of the relationship.

None to Report

8. Describe the acquisition of new customers or loss of customers.

The Issuer's wholly owned subsidiaries Pioneer Aerial Surveys, High Eye Aerial Imaging, UAV Regulatory Services and NOVAerial Robotics have new customers on a consistent basis – many of these customers sign contracts specific to particular jobs, hence many of the customers are for single jobs.

For privacy of their customers, those names will generally not be released to the public. Those few that are made public are generally included in news releases.

(1) State aggregate proceeds and intended allocation of proceeds.

15. Provide details of any loans to or by Related Persons.

None to Report

16. Provide details of any changes in directors, officers or committee members.

None to Report

17. Discuss any trends which are likely to impact the Issuer including trends in the Issuer's market(s) or political/regulatory trends.

The UAV sector has been receiving a greater amount of attention in the media, which has created a larger awareness of the public.

The lack of market interest in early stage exploration properties continues to affect the ability to operate in Mexico. The Company is currently looking at options to exit Mexico.
