

ACME Lithium Inc. to Present at 121 Mining Conference in Las Vegas, Nevada March 28th and 29th

Vancouver, British Columbia--(Newsfile Corp. - March 20, 2023) - **ACME Lithium Inc. (CSE: ACME) (OTCQX: ACLHF)** (the "Company", or "ACME") is pleased to announce that President and CEO Steve Hanson will be meeting and presenting to investors at [121 Mining Conference](#) in Las Vegas, Nevada.

The 121 Mining Investment Las Vegas Summit takes place on March 28th and 29th and attracts US and international investors for two days of investment-led panel sessions and CEO presentations.

With the rapid demand for securing a domestic supply of lithium, Nevada is at the forefront of mining in the US and remains one of the world's most attractive jurisdictions for mining investment.

ACME's CEO Steve Hanson will be presenting an overview of ACME's two Nevada projects including an update on the Phase 2 lithium brine drill program at Clayton Valley, the recent geological field review and sampling programs at Fish Lake Valley, as well as information on ACME's Manitoba and Saskatchewan pegmatite projects in Canada.

This news release may contain forward-looking information within the meaning of applicable securities laws ("forward-looking statements"). Forward-looking statements are statements that are not historical facts and are generally, but not always, identified by the words "expects," "plans," "anticipates," "believes," "intends," "estimates," "projects," "potential" and similar expressions, or that events or conditions "will," "would," "may," "could" or "should" occur and in this news release include but are not limited to the attributes of, timing for and expected benefits to be derived from exploration, drilling or development at ACME's project properties. Information inferred from the interpretation of drilling, sampling and other technical results may also be deemed to be forward-looking statements, as it constitutes a prediction of what might be found to be present when and if a project is actually developed. ACME's project location adjacent to or nearby lithium projects does not guarantee exploration success or that mineral resources or reserves will be defined on ACME's properties. Exploration, development, and activities conducted by regional companies provide assistance and additional data for exploration

work being completed by ACME. These forward-looking statements are subject to a variety of risks and uncertainties which could cause actual events or results to differ materially from those reflected in the forward-looking statements, including, without limitation: risks related to fluctuations in metal prices; uncertainties related to raising sufficient financing to fund the planned work in a timely manner and on acceptable terms; changes in planned work resulting from weather, logistical, technical or other factors; the possibility that results of work will not fulfill expectations and realize the perceived potential of the Company's properties; risk of accidents, equipment breakdowns and labour disputes or other unanticipated difficulties or interruptions; the possibility of cost overruns or unanticipated expenses in the work program; the risk of environmental contamination or damage resulting from the Company's operations and other risks and uncertainties. Any forward-looking statement speaks only as of the date it is made and, except as may be required by applicable securities laws, the Company disclaims any intent or obligation to update any forward-looking statement, whether as a result of new information, future events or results or otherwise.
