

Intellabridge Technology Corporation Announces Kash NFT Partnerships with LunaBulls and Terra Cards

Menlo Park, California, Vancouver, British Columbia and Boulder, Colorado--(Newsfile Corp. - October 25, 2021) - Intellabridge Technology Corporation (CSE: INTL) (OTCQB: CRBTF) (FSE: 98AA) ("Intellabridge") is pleased to announce partnerships with LunaBulls and Terra Cards to create the first-ever utility non-fungible tokens ("NFT") in the Terra ecosystem that provide NFT owners with utility value on the Kash DeFi platform.

According to Forbes, NFT sales topped \$1.2 billion in July 2021. Notable venture capital firm, Loup Ventures, estimates the total market size of NFTs to be worth over \$1 trillion with an expanded market beyond \$2 trillion as part of the broader metaverse trend in blockchain.

LunaBulls and Terra Cards are two of the first original NFT projects created on the Terra blockchain. Prior to this partnership, all NFT projects have been primarily representations of ownership in digital artwork; however, with this partnership NFT owners hold distinctive benefits with utility value on the Kash DeFi platform.

LunaBulls has created more than 10,000 unique profile picture ("PFP") artworks whose ownership is recorded on the Terra blockchain. There are over 13,700 members on the LunaBulls Discord server, and with this partnership, Kash has already created a special edition Kash LunaBull NFT that will enable the holder to automatically receive lifetime Diamond status on the Kash platform. This NFT will go on sale during the week of October 25th 2021.

Terra Cards is a collection of 600 NFTs representing various projects within the Terra Ecosystem, Kash DeFi included. This NFT project was created in large part as a charity initiative, with half of all proceeds being donated via Angel Protocol. Owners of any Kash Terra Card NFT will receive lifetime gold status on the Kash DeFi platform, with higher savings rates, increased token rewards for savings activity, and higher cash back rates for debit card transactions. As part of the partnership launch, special edition Terra Cards will be custom created for an auction the week of October 25th 2021.

"We see NFTs as much more than just a collection of digital artwork. We view them as digital utility assets providing value to Kash customers and network value to the Kash ecosystem, " said John Eagleton, CEO of Intellabridge. "We believe that the future of NFTs is in their utility value, and these partnerships reflect the potential of NFTs to provide meaningful benefits for NFT owners. This partnership-based approach allows us to accomplish our objective to bring next generation NFTs to our customers and network value to Kash."

About Intellabridge Technology:

Intellabridge Technology Corporation (CSE: INTL) (OTCQB: CRBTF) (FSE: 98AA) is a digital bank based on blockchain technologies that provides retail and institutional investors with access to

decentralized financial applications with additional layers of cybersecurity and customer service.
