

## NEWS RELEASE

### **HealthSpace Signs \$1 Million USD Contract with Orange County Health Care Agency**

**VANCOUVER, BC – June 30, 2020** - HealthSpace Data Systems Ltd. (the “Company” or “HealthSpace”) (CSE:HS) (Frankfurt:38H) (OTC:HDSLFL) is pleased to announce it has signed a contract with Orange County Health Care Agency in California. The total worth of the contract is \$1,006,121.61 over the next five years.

This is the second contract the Company has signed in the State of California. Orange County, which resides in the Los Angeles metropolitan area, is the 3rd most populous county within California. The contract comes after the Company was awarded their bid in response to Orange County’s RFP in April.

HealthSpace CEO, Silas Garrison noted “It is exciting to see us win a second significant contract in California. Orange County released their RFP in April and we were awarded the bid, and subsequently signed the contract, in a relatively fast time frame. We are seeing more traction in California and each contract win sets us up for more as the word of mouth effect takes hold. Our HSCloud is uniquely powerful in this space and it is gratifying to see how the market is continually reacting to it and choosing to implement it. At this stage, Orange County will be utilizing HSCloud for oversight of five regulatory program areas such as restaurants, pools and hazardous materials. This compares to the 14 regulatory programs San Francisco is utilizing HSCloud for.”

### **HealthSpace Data Systems Ltd.**

HealthSpace is a government Software as a Service (SaaS) company focused on providing efficiencies to state and local government agencies through its powerful enterprise cloud and mobile platform. Over the last decade, HealthSpace has successfully developed both cloud and mobile applications currently serving over 500 state and local government organizations across North America. HealthSpace’s HSCloud Suite platform is one of the only self-serve enterprise SaaS platforms in the government space. HealthSpace is focused on revolutionizing every aspect of the regulatory process within state, provincial and local government; from licensing to inspections, to disease surveillance, to financial management. HealthSpace’s platform handles it all. HealthSpace is now entering the FinTech space by developing an online and mobile payment platform that streamlines the intake of government revenue for the agencies it serves. The Company has also expanded its offerings in the realm of communicable disease tracking by creating an automated contact solution which enables public health agencies to broaden the scope and depth of their communicable disease surveillance in an automated fashion.

### **Forward-Looking Statements**

This release may contain forward-looking statements. Forward-looking statements are statements that are not historical facts and are generally, but not always, identified by the words "expects", "plans", "anticipates", "believes", "intends", "estimates", "projects", "potential" and similar expressions, or that events or conditions "will", "would", "may", "could" or "should" occur. Although HealthSpace believes the

expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements are not guarantees of future performance and actual results may differ materially from those in forward looking statements. HealthSpace expressly disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise.
