On March 22, 2018, the Issuer announced the execution of a binding Acquisition and Share Exchange Agreement with Advanced Biocentials Limited, a privately-owned Limited Liability Company (“ABL”) incorporated in the USA under the Laws of New Jersey. Under the terms of the agreement ABL and its wholly owned subsidiary Pro-Thotics Technology Inc. (“PTI”), a New York private corporation with a more than 25 year established business, will become wholly owned subsidiaries of Nass Valley as the “Resulting Issuer”.

Subsequent to receiving comments on its initial two drafts of the submitted Listing Statement from the CSE, the Company amended its latest draft of the Listing Statement in accordance to a discussion with the two Listing officers assigned to the Company’s file and submitted it to the CSE on July 19th, 2018.

During several inquiries by the Issuer in respect to the CSE’s comments on the in July 2018 submitted draft of the Listing Statement, the Issuer was assured to hear back “as soon as possible”. Although the financial presentation and timely submitted quarterly financials of the Issuer and the Target company were approved and accepted by the CSE’s respective officer, the Issuer has not received any further comments on the content of its draft of its Listing Statement, submitted on July 19th, 2018, from the CSE.

On request by the CSE, the Issuer submitted on September 30, 2018, clean and blacklined copies of the Listing Statement draft with updates on financial data from the last reviewed quarterly financial statements.

NONE

17. Discuss any trends which are likely to impact the Issuer including trends in the Issuer’s market(s) or political/regulatory trends.

The Issuer has historically relied upon equity financings to satisfy its capital requirements and will continue to depend heavily upon equity capital to finance its activities. The Issuer is convinced that it will need additional capital in the future to finance the ongoing commercialization of its technology projects and such capital will have to be derived from the exercise of outstanding stock options, warrants and/or the completion of other equity financings or convertible debentures, including possible governmental subsidies, and additional sales contracts.

Nass Valley Gateway has presently limited financial resources and presently has no source of operating income. Although the Issuer has been successful in the past in financing its activities through the sale of equity securities and loans from insiders, there is no assurance that additional funding will be available to it for future development of its projects. The Issuer’s ability to arrange additional financing in the future will depend, in part, on the prevailing capital market conditions and success in its projects but is especially negatively impacted by the present continued trading-halt pending the approval of the CSE

There can be no assurance that continual fluctuations in the Issuer's share prices will not occur or that these fluctuations will not affect the ability of the Issuer to raise equity funding, and if at all, without causing a significant dilution to its existing shareholders. Any quoted market for the common shares may be subject to market trends generally, notwithstanding any potential success of the Issuer in creating revenue, cash flows or earnings.
