Report on Business

1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.

On March 26, 2019, the Company announced a non-brokered private placement for sale of up to 5,000 convertible debenture units (the "Units") at a price of \$1,000 per Unit for aggregate gross proceeds of \$5,000,000 (the "Offering"). Please refer to the press release for further details. On June 28, 2019, the Company closed the second tranche for 550 units for gross proceeds of \$550K. Finders fees of \$33,000 and 33 Compensation warrants. Lynn Mueller, CEO, continues to present the opportunity of Sharc to investors, brokers, funds, etc. to capitalize Sharc for current and future growth.

From June 25th to 28th, Sharc was invited by Global Affairs Canada, through the Embassy of Canada in Seoul and National Research Council and Industrial Research Assistance Program, to participate in the Canadian Water & Wastewater R&D Mission to South Korea. The Company was pleased with the reception of Sharc and has generated interest from that market since participating.

During June 2019, the Company has continued to work towards completion of the Clyde Gateway and Aqualibrium projects in the UK. These are scheduled to be complete in Q3 2019. Completion of these projects will be a significant milestone for the Company as this will signify a new stage of our heat supply business model. This business model consists of building heating and cooling energy centers and entering into 20-year Heat Supply Agreements which provides monthly cash flow off Company owned infrastructure.

The Company continues to educate, train and set the standards for the industry by:

- **Stacey Bernier & Associates Consulting (“SBA”) is developing an education and sales training protocol by supporting the mentoring of the SHARC team. As a result of his work, he has created a 45 day action plan:**
 - **To close the gap between the value of SHARC technology as perceived by the engineers compared to the true potential.**
 - **To identify our target customer and jurisdiction**
- **Trevor Funk has developed an education and training support protocol to support the sales team and distributors on SHARC technology and its suite of products. The Company has had 21 session in Canada in Q1 2019 alone.**
- **Sharc UK has conducted lunch and learn sessions in Scotland conducted by Joe Short and representatives from Scottish Water.**
- **Sharc UK’s Stewart McDonald has forged a relationship with Glasgow University’s Engineering Department which is undertaking research which aims to collate data on heat exchange opportunities.**
- **Sharc UK Stewart McDonald sits on the Clyde Low Carbon Heat working group and is a member of the Scottish Environmental Protection Agency’s Low Carbon Roundtables, working with local and national government to shape policy to promote the adoption of low-carbon energy.**
- **The Company put on an awareness event at Head Office called “Sharc-a-palooza” that saw 300 visitors interested in learning more about SHARC technology and the Company.**

The Company is poised to position itself within this program as a key driver in the fight against reducing greenhouse gas emissions. Mining the energy that flows just beneath our feet is a major step forward in green building technology and could make significant improvements in the environment.
