Report on Business

1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.

In a press release dated March 26, 2019, Aura Health Inc. (the "Company" or "Aura") announced the appointment of Alain Dobkin to its board of directors, subject to regulatory approval. Former CEO Chris Carl has volunteered to step down as President and from Aura's board to focus on his role as CEO of DigiCrypts.

2. Provide a general overview and discussion of the activities of management.

Aura's mission is to build an international network of vertically integrated businesses in the medical cannabis industry. While the Company continues to own a 30% interest in the four medical marijuana clinics in the United States (collectively, the "Sun Valley Clinics" or "PACs" or "Clinics", and each a "Clinic"), management is actively seeking to expand its activities into Israel, Europe, and neighbouring markets. Under the directions of the CEO and COO, Aura is developing an international strategy going forward, while seeking to acquire and develop differentiated, value-added cannabis businesses.

Since obtaining a listing on the CSE, the Company signed LOIs for assets in Israel, a country that is a pioneer of modern medical cannabis and a global centre for cannabis R&D. In November 2018, the Company closed its LOI and entered into a definitive agreement with HolyCanna Ltd. to secure a majority (54%) equity stake in the Israel-based company with a cannabis nursery and cultivation license (the "License") the Management believes the country will continue to play a pivotal role globally that will accelerate if cannabis exports are legalized. In September 2018, Aura also entered into a LOI to purchase 57% of CannabiSendak Ltd., a builder of a network of high-profile dispensaries in Israel.

In February 2019, Aura entered into the SPA to acquire 80% of Pharmadrug for EUR 4.6 million. Pharmadrug is a German pharmaceutical distribution company with over 20 years of operating history. Pharmadrug has a Schedule I European Union (“E.U.”) narcotics licence that allows the business to distribute medical cannabis to pharmacies in Germany and the rest of the Eurozone as markets become legalized. Pharmadrug has a supply agreement with Bedrocan International B.V. and is expecting its first cannabis shipment next week. Pharmadrug also has a supply agreement with a Western Canadian LP and is currently assisting them in achieving Euro GMP certification.

None noted.

13. Provide details of any indebtedness incurred or repaid by the Issuer together with the terms of such indebtedness.

None noted.

14. Provide details of any securities issued and options or warrants granted.

No securities were issued during the current month

15. Provide details of any loans to or by Related Persons.

None noted.

16. Provide details of any changes in directors, officers or committee members.

None noted.

17. Discuss any trends which are likely to impact the Issuer including trends in the Issuer's market(s) or political/regulatory trends.

Aura currently operates its Sun Valley Clinics in Nevada, Arizona and Florida. Each state's medical marijuana laws require medical marijuana licenses for establishments which touch the medical marijuana. Such establishments include medical marijuana treatment centers, independent testing laboratories, cultivation facilities, facilities for the production of edible marijuana products or marijuana-infused products; or medical marijuana dispensaries. As medical assessment clinics do not currently fall into any of these categories, there is no approval or license requirement under the applicable state medical marijuana laws and regulations. Outside of medical marijuana laws, the Clinics do need to obtain regular business registrations to operate a medical assessment clinic in each of the states it operates.

On March 22, 2018, the House of Representatives and Senate voted in favour of approving the Consolidated Appropriations Act, 2018 ("Omnibus Spending Bill" or the "Bill"), which extended the Rohrabacher-Leahy Amendment ("Rohrabacher-Leahy") until the end of September 2018. With the Bill's approval comes an extension of Rohrabacher-Leahy Amendment until September 2018, which prevents the US Department of Justice (the "DOJ") from using federal funds in enforcing federal law relating to medical cannabis, which effectively allows states to implement their own laws that authorize the use, distribution, possession, or cultivation of medical marijuana. Aura commends this development and welcomes the opportunity to roll out its corporate strategy in a more certain legal environment.

On April 13, 2018, the Washington Post reported that President Trump and Colorado Sen. Cory Gardner reached an understanding that the marijuana industry in Colorado will not be the subject of interference from the federal government and that the DOJ's recession of the Cole memo will not impact Colorado's legal marijuana industry. Aura is pleased to see reports that President Trump has promised top Senate Republicans that he will support congressional efforts to protect states that have legalized marijuana.

On January 27, 2019, the Israeli government announced the new law, approving the export of Israeli-grown cannabis to the global market. The law makes Israel the third country in the world, after Canada and the Netherlands, to approve export of medicinal cannabis. The primary export market is expected to be the E.U., one of the world's largest markets for medical cannabis. This is particularly beneficial to Aura, as the Company continues to grow its presence in the E.U. and build a strong vertical

integration with our business in Israel. Daniel Cohen, CEO of Aura, commented, “We welcome the Israeli government’s decision to approve the export of medicinal cannabis. With our Israeli production set to begin later this year, combined with our planned acquisition of the Pharmadrug distribution business in Germany, this moves Aura into a very strategic position. Until our own production is available, we see significant revenue opportunities by exporting other cannabis products from Israel into the E.U. through our mapped distribution channels.”

Aura’s business involves certain risks and uncertainties that are inherent to the Company’s industry. Please refer to the “Risk Factors” section of the Management’s Discussion and Analysis filed quarterly on SEDAR.
