2. Provide a general overview and discussion of the activities of management.

The Company is an investment and merchant banking firm focused on the small-cap market, with early-stage investments in areas such as resources, technology and in the cannabis market.

Management, under the direction and guidance from its CEO, continues to review investment opportunities in the small cap environment, while adding and trimming positions when deemed appropriate.

General market conditions have been negative and volatile in 2020. Overall, cannabis shares have been negatively impacted as well. However, we are seeing anecdotal evidence that the market is starting to recognize cannabis issuers that are well managed and reporting good performance. The Company has not been highly active on the new investment front in recent months. As we exit existing

investments, considering current cannabis market conditions, Quinsam may choose to look at investments outside the cannabis sector going forward.

17. Discuss any trends which are likely to impact the Issuer including trends in the Issuer's market(s) or political/regulatory trends.

The Issuer is not aware of any trends which are likely to materially impact the issuer's business or markets. The Company is reliant on the stability of the equity markets to provide returns on its investment portfolio. Given the nature of the Company's activities, its results of operations and financial condition are dependent upon the market value of securities that comprise the Company's portfolio. The Company's investments are small-cap businesses which the Company believes exhibit potential for growth and sustainable cash flows but which may not ever mature or generate the returns the Company expects or may require several years to do so.

In addition, on January 30, 2020, the World Health Organization declared that the recent COVID-19 outbreak was a global health emergency, recognizing that the disease represents a risk outside of China, where it emerged in the last couple of months. Companies across various industries could be impacted materially by the coronavirus.

COVID-19's known and unknown impact on earnings, costs, employees, supply chains, customers and other stakeholders, as well as other business matters, may be material for the Issuer, and may have a material impact on the Issuer's gross earnings, net earnings and other business matters. Environmental, social and governance factors may also impact the Issuer's operations in the near future.

Quinsam has operated on a "virtual basis" for a number of years. Therefore, the general closure of non-essential businesses in response to the outbreak does not impact day-to-day operations.
