### **EVIANA PROVIDES ADDITIONAL DETAILS ON PROCESSING AND STORAGE FACILITY**

November 22, 2017 – Eviana Health Corporation, (EHC:CSE) (the “**Company**”) in conjunction with Eviana Inc., is pleased to provide additional details and an update on the work done to the processing and storage facility, located in the village of Mladenovo, Serbia. “We have been putting a substantial amount of work into our Mladenovo facility to ensure that our hemp flower and seed gets processed and stored in a state of the art environment”, stated Avram Adizes, CEO of the Company.

On October 11, 2017, Eviana Inc. completed the acquisition of a 40,000 square foot processing and storage facility (the “**Facility**”) for 300,000 Euros, located in Mladenovo, Serbia. Eviana Inc. paid 30,000 Euros as a deposit with the remainder to be paid equally over a six-month period. The Facility is a strategic investment, as it is located approximately 12 kilometers from the fields under which Eviana Inc. has a license to harvest 100 hectares of hemp.

Eviana Inc. has been using the Facility for the drying of the hemp that was harvested. Since the acquisition of the Facility, Eviana Inc. has also implemented a capital expenditure plan, including installation of a specialized exhaust system, scales, and a security and surveillance system, to prepare the plant for the delivery of the herb processing and selection machine. The herb processing and selection machine is used to refine and sort the hemp, and results in 25kg packaged bags of refined hemp.

The Facility is also being utilized to store all of the equipment that is used during the harvest. Furthermore, hemp storage shelving units will also be assembled in order to properly store the refined hemp.

Eviana Inc. expects the use of the Facility to dry, process, select and package the hemp, and due to its strategic location, will furthermore help reduce transportation costs when transporting the refined hemp to Eviana Inc.’s CDB extraction plant in Belgrade.

### **About Eviana Health Corporation**

The Company was established with the aim of delivering customized consumer health care products using natural hemp strains of cannabis sativa for cannabinoid-based topical creams, products and cosmeceutical and nutraceutical merchandise. The Company holds an option to acquire a 100% equity interest in Eviana Inc., an Ontario corporation, which holds certain assets in Serbia relating to the cultivation of industrial hemp plant oil for the pharmaceutical, nutraceutical and cosmeceutical industry. Pursuant to this option, the Company has access to a significant grower/supplier of a cannabinoids.
