

## **CROP HITS IMPORTANT MILESTONE WITH TENANT HARVESTING IN CALIFORNIA**

**August 9<sup>th</sup>, 2018 - VANCOUVER, BRITISH COLUMBIA - CROP Infrastructure Corp. (CSE: CROP) (OTCMKTS: CRXPF) (“CROP” or the “Company”)** announced today that its tenant at the Humboldt County California property has started harvesting 10,000 square feet of greenhouses.

The operation began in the first of five 2,000 square foot greenhouses and the remaining four greenhouses will be harvested at the rate of one per week. As each greenhouse is harvested new starter plants will populate the canopy space. Once the crops have all been taken down an additional 20,000 sq. ft of canopy crop will be harvested at which time the plants should be mature.

CROP Infrastructure Director & CEO Michael Yorke states: “This is an exciting time at CROP as our California property’s tenant reaches its first harvest. First production is always a very important milestone as the results will be analyzed closely and will give an indication of what is not only achievable long term on this property, but also similar ones.”
