### **Hilltop Cybersecurity Announces a New CISO.**

**August 17, 2018 – Kelowna, B.C., Canada – Hilltop Cybersecurity Inc, (“Hilltop” or the “Company”)** (CSE: CYBX) (OTC: BGGWF), is pleased to announce Pete Herzog as the new CISO (Chief Information Security Officer).

Pete Herzog is a well-known “white-hat” hacker that has contributed to the cyber security community and is respected worldwide for his work with IBM’s Ethical Hacking Team, in creating the Open Source Security Testing Methodology Manual (OSSTMM), an international standard for security testing and analysis, and for creating Hacker Highschool, the world’s most popular cybersecurity and cyber-safety textbooks for teenagers. We have long supported these two projects and have integrated OSSTMM research into our own products with the help of Herzog.

Pete is a featured speaker at RSA annually and has won numerous awards for his contributions to the cyber-security space both public and private.

Pete replaces Tom Gilmore who is pursuing other interests. Mr. Gilmore has resigned as COO as well and the company is currently considering his replacement for that role within the company

“We are privileged to both work with Pete and learn from his insight and experience. The leadership of the company is thrilled that he believes enough in the technology and direction of the company’s products to join us in a more substantive full-time role” Corby Marshall, CEO of Hilltop Cyber Security, CYBX.
