EVIANA EXERCISES OPTION TO ACQUIRE EVIANA INC.

PROVIDES OPERATIONAL UPDATE

VANCOUVER, BC, AND TORONTO, ON, November 1, 2018 – Eviana Health Corporation (the “Company”) (CSE: EHC) (OTC: EVNNF) (www.eviana.ca) is pleased to announce that, effective November 1, 2018, it has acquired a 100% interest in Eviana Inc., a private Ontario corporation that owns 100% of Intiva Plus doo and Eviana doo, two Serbian companies that hold licenses authorizing the growing of industrial hemp and extraction of cannabidiol (“CBD”) in Serbia. The acquisition was pursuant to the exercise by the Company of its option to acquire Eviana Inc., in accordance with the terms and conditions set out in the amended and restated option agreement dated April 4, 2017 among the Company, Eviana Inc., and Dr. Avram Adizes.

“This day marks the passing of another major milestone for Eviana. By exercising our option we now have a single corporate structure that brings together the best of our Canadian and Serbian operations, intensifies focus on the delivery of our business plan, and allows us to scale our efforts within the global CBD marketplace” stated Dr. Avram Adizes, CEO of the Company.

The Company plans to target the medical, beauty & grooming, vitamins & supplements, fitness, food & beverage, and pet markets within the global pharmaceutical and consumer packaged goods industries. “The profile of Eviana as an emerging player in the high-growth CBD market has improved with this corporate restructuring; it will only expedite the success of the Company in the markets we choose to serve” remarked Alex Kotyck, President of Eviana Health Corporation.

Operational Update

The Company’s hemp cultivation and CBD extraction assets are as follows:

- 310 Metric tonnes of harvested and dried hemp ready for sorting, selection and extraction;
- A 4.42 acre complex, which includes a number of buildings covering approximately 40,000 sq. ft. of the property used primarily for agriculture;
- Two types of extraction processes, CO₂ and ethanol, are both operational;
- A leased 22,000 sq. ft. facility used to process hemp biomass into CBD oil;
- Off-take agreement with Organigram Holdings Inc. (“Organigram”), part of the previously announced \$10,000,000 debenture financing split between Organigram and a strategic investor.
- The end-to-end hemp cultivation and CBD extraction process to be certified for Good Manufacturing Practices (GMP) demanded by the medical and recreational markets.

The Company's production processes are currently undergoing a comprehensive evaluation to maximize profitability without compromise to product quality or employee safety. "We have produced our first few runs of CBD extraction and have learned from the experience. We are now tuning our operating plan to scale up and meet the increasing demand in this market; and the needs of our shareholders" said Mr. Kotyck.

About Eviana Inc.

Eviana Inc. is a private Ontario corporation that wholly-owns each of Intiva Plus doo and Eviana doo, two Serbian companies that hold licenses in Serbia authorizing the growing of and cannabidiol ("CBD") extraction from industrial hemp.
