

FORM 7

MONTHLY PROGRESS REPORT

Name of CNSX Issuer: Dundee Sustainable Technologies Inc. (the "Issuer" or "DST").

Trading Symbol: DST

Number of Outstanding Listed Securities 314,942,521

Date: January 7, 2019

This Monthly Progress Report must be posted before the opening of trading on the fifth trading day of each month. This report is not intended to replace the Issuer's obligation to separately report material information forthwith upon the information becoming known to management or to post the forms required by Exchange Policies. If material information became known and was reported during the preceding month to which this report relates, this report should refer to the material information, the news release date and the posting date on the Exchange website.

This report is intended to keep investors and the market informed of the Issuer's ongoing business and management activities that occurred during the preceding month. Do not discuss goals or future plans unless they have crystallized to the point that they are "material information" as defined in the Policies. The discussion in this report must be factual, balanced and non-promotional.

General Instructions

- (a) Prepare this Monthly Progress Report using the format set out below. The sequence of questions must not be altered, nor should questions be omitted or left unanswered. The answers to the items must be in narrative form. State when the answer to any item is negative or not applicable to the Issuer. The title to each item must precede the answer.
- (b) The term "Issuer" includes the Issuer and any of its subsidiaries.
- (c) Terms used and not defined in this form are defined or interpreted in Policy 1 – Interpretation and General Provisions.

Report on Business

1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.

The growing pressure from communities and government authorities over the use of cyanide in various jurisdictions around the world is forcing developing gold projects to seek alternative processes that can extract the gold without the environmental liabilities associated with cyanide, while maintaining control over the deleterious elements such as arsenic, mercury and antimony.

DST offers a competitive alternative to the cyanidation process. The technology is at the forefront of the mining industry's innovative extraction processes and caters to the worldwide growing need for extractive technologies capable of processing refractory and arsenic bearing material. This alternative provides DST leverage to access quality material including material from metallurgical or environmentally constrained deposits.

DST's business plan is focused on controlling both of its technologies and leveraging them to become a major player in the industry. The Corporation has a unique opportunity to emerge as a major stakeholder in multiple mining projects. In the immediate term, DST is focused on advancing its discussions with major gold and copper producing companies on building alternative processing and stabilization processes. The Corporation is currently processing test material for several customers. Assuming successful results, the next step is to negotiate the business terms with those customers for commercializing its technologies.

The technology that the Corporation has developed with respect to complex deposits will allow for the development and or advancement of mining projects that would not be viable without its patented technology. DST has identified over 100 gold projects that could face significant concerns due to cyanide use, environmental and/or metallurgical constraints. These include some of the largest gold projects on the planet. The commercialization of the Corporation's technology would enable mining companies to advance those projects which are currently constrained because of the toxic nature of their deposits and discussions have commenced with a number of mining companies to help advance these otherwise stranded deposits.

DST continues to build its technical services business and under the terms of these contracts, the Corporation will provide technical services in markets such as lithium, cobalt, nickel, magnesium, graphite and gold. Proceeds from these contracts will help to offset developmental and operating costs related to its primary technologies.

On December 2018, DST received from the Government of Canada, through the Sustainable Development Technology Canada Fund, a third payment of \$112,500 as part of the \$1.25 million funding announced on January 24, 2018 for the continued development of the Corporation's patented arsenic vitrification technology. These monies assisted DST in delivering an industrial scale arsenic vitrification plant to a metals processing facility which is undergoing final assembly and commissioning on site under the supervision of DST's experienced technical team. The DST technical team is on site to begin hot commissioning and a twelve-month operation period (please refer to press release dated December 5, 2018). The objective of the project is to confirm, at the industrial scale, the amenability of the DST Technology for the treatment of flue dusts produced by the facility. During the operation period data will be collected and a study will be performed to evaluate the technical and economic implications of a full-scale DST arsenic vitrification plant to be located at the facility.

2. Provide a general overview and discussion of the activities of management.

Regular activities of management.

3. Describe and provide details of any new products or services developed or offered. For resource companies, provide details of new drilling, exploration or production programs and acquisitions of any new properties and attach any mineral or oil and gas or other reports required under Ontario securities law. **N/A**
4. Describe and provide details of any products or services that were discontinued. For resource companies, provide details of any drilling, exploration or production programs that have been amended or abandoned. **N/A**
5. Describe any new business relationships entered into between the Issuer, the Issuer's affiliates or third parties including contracts to supply products or services, joint venture agreements and licensing agreements etc. State whether the relationship is with a Related Person of the Issuer and provide details of the relationship.

On December 23, 2018, DST announced a \$1.5 million technical services project with KSM Inc. DST will provide to KSM the construction of specialized equipment, senior engineering support and bulk processing of mineralized material. This work will support an industrial demonstration using KSM Inc.'s proprietary process for the extraction of fertilizer products from the serpentinitic tailings in Thetford Mines, Quebec. This transaction is a related party transaction by virtue of common management between DST and KSM.

6. Describe the expiry or termination of any contracts or agreements between the Issuer, the Issuer's affiliates or third parties or cancellation of any financing arrangements that have been previously announced. **N/A**
7. Describe any acquisitions by the Issuer or dispositions of the Issuer's assets that occurred during the preceding month. Provide details of the nature of the assets acquired or disposed of and provide details of the consideration paid or payable together with a schedule of payments if applicable, and of any valuation. State how the consideration was determined and whether the acquisition was from or the disposition was to a Related Person of the Issuer and provide details of the relationship. **N/A**
8. Describe the acquisition of new customers or loss of customers. **N/A**
9. Describe any new developments or effects on intangible products such as brand names, circulation lists, copyrights, franchises, licenses, patents, software, subscription lists and trade-marks.

On December 2018, DST filed the following patents for the treatment of arsenic bearing material in China: "Method for Vitrification of Arsenic and Antimony", and "Arsenic Glass and Method of Fabrication Thereof". These patent applications will become the foundation for protection and development of DST's arsenic vitrification IP in China.

10. Report on any employee hirings, terminations or lay-offs with details of anticipated length of lay-offs. **N/A**
11. Report on any labour disputes and resolutions of those disputes if applicable. **N/A**
12. Describe and provide details of legal proceedings to which the Issuer became a party, including the name of the court or agency, the date instituted, the principal parties to the proceedings, the nature of the claim, the amount claimed, if any, if the proceedings are being contested, and the present status of the proceedings. **N/A**

13. Provide details of any indebtedness incurred or repaid by the Issuer together with the terms of such indebtedness. **N/A**
14. Provide details of any securities issued and options or warrants granted.
On December 17, 2018, DST issued 2,015,991 Subordinate Voting Shares at \$0.032 to Asbestos Corporation Limited.
15. Provide details of any loans to or by Related Persons. **N/A**
16. Provide details of any changes in directors, officers or committee members. **N/A**
17. Discuss any trends which are likely to impact the Issuer including trends in the Issuer's market(s) or political/regulatory trends. **N/A**

Certificate of Compliance

The undersigned hereby certifies that:

1. The undersigned is a director and/or senior officer of the Issuer and has been duly authorized by a resolution of the board of directors of the Issuer to sign this Certificate of Compliance.
2. As of the date hereof there were is no material information concerning the Issuer which has not been publicly disclosed.
3. The undersigned hereby certifies to the Exchange that the Issuer is in compliance with the requirements of applicable securities legislation (as such term is defined in National Instrument 14-101) and all Exchange Requirements (as defined in CNSX Policy 1).
4. All of the information in this Form 7 Monthly Progress Report is true.

Dated January 7, 2019.
