Gulf and Harrington are both significant shareholders of the Company and, as such, each is a Related Party of the Issuer. Under each Loan Agreement, both of which contain arm's-length terms, the relevant lender may advance one or more loans to the Company from time to time, upon request by the Company. A lender may decline a loan requested by the Company or approve of only a portion of such loan in its sole discretion. Any loan will be evidenced by a secured convertible promissory note. The terms of repayment of the principal amount, interest and any fees of any loan, including without limitation the maturity date and the rate of interest, and the conversion price will be set out in a repayment schedule attached to the applicable note.

Each loan will be secured by a general security agreement (the "**GSA**") pursuant to which the Company granted in favour of the lenders a security interest in all the Company's present and after-acquired real and personal property (the "**Collateral**"). The Collateral excludes the Company's shares of NAZZ2 (the "**NAAZ2 Shares**") and all rights of the Company derived from or connected to the NAAZ2 Shares (the "**NAAZ2 Shares Derivative Rights**"). The Collateral does however include all dividends, income, interest, and other amounts (other than additional NAAZ2 Shares) paid to and received by the Company on the NAAZ2 Shares and the NAAZ2 Shares Derivative Rights. If the Company obtains the consents necessary to grant to the lenders a lien on the NAAZ2 Shares and the NAAZ2 Shares Derivative Rights, this property will become part of the Collateral.

All or any portion of the principal amount, accrued interest and fees outstanding under a note is convertible by the lender into common shares of the Company at any time before the earlier of: (i) the date of repayment by the Company of all its obligations owing under a loan; and (ii) the date that is the five years from the

date of the note corresponding to such loan, at a conversion price per share set out in the applicable note and subject to adjustment upon certain events occurring. The conversion price for each loan will be approved by the Company's board and by the Canadian Securities Exchange.

The principal amount advanced by a lender must be used by the Company for working capital requirements in respect of the production project in the Khalakan Block in the Kurdistan Region, general corporate purposes and any capital expenditures for the purchase by the Company of property or assets permitted under the Loan Agreement.

14. Provide details of any securities issued and options or warrants granted.

Security	Number Issued	Details of Issuance	Use of Proceeds ⁽¹⁾
No Securities were issued during the month of January 2019			

(1) State aggregate proceeds and intended allocation of proceeds.

15. Provide details of any loans to or by Related Persons.

See Note 13 above. Gulf LNG holds 71.02% and Harrington Global Opportunities Fund S.A.R.L. holds 12.05% of the Issued and Outstanding shares of the Issuer.

16. Provide details of any changes in directors, officers or committee members.

Not applicable to the Issuer during the month of January 2019.

17. Discuss any trends which are likely to impact the Issuer including trends in the Issuer's market(s) or political/regulatory trends.

Trends and risks that may impact the Issuer:

- a. The Issuer's principal activity is oil and gas exploration and development. Companies in this industry are subject to many and varied kinds of risks, including but not limited to, oil and gas prices and environmental, political and economic conditions. The world-wide market price of crude oil has decreased substantially from its high in 2014. While this market price of crude oil has increased from its low mark, it still remains well below its 2014 high mark. This price decrease could have a material adverse effect on the value of the Company's assets.
- b. The Issuer has no significant source of operating cash flow and no revenues from operations. The Issuer has limited financial resources. Substantial expenditures are required to be made by the Issuer to fulfill its obligation to fund exploration and development activities on the Khalakan Block. The Company's failure to obtain additional funding to meet its funding obligations could result in the Company's forfeiture, or forced sale at a discount, of its interests in its properties (including the Khalakan Block) or reduce or terminate its exploration or development plans. Additionally, if a joint venture participant in the Khalakan Block fails to meet its obligation to fund certain cash calls and the Company or another entity does not fund that cash call, the PSC could be terminated or the Company could be required to forfeit, or sell at a discount, its interest in the Khalakan Block.

- c. The Issuer's investment is located in the Kurdistan Region of Iraq. There is currently no national hydrocarbon law in place in Iraq. When or whether such a law will be enacted is uncertain because of the tenuous relations between the Kurdistan Regional Government and the Government of Iraq. The relationship between the Kurdistan Regional Government and the Government of Iraq was further negatively impacted by the referendum, held by the Kurdistan Regional Government on September 25, 2017, in which voters were asked whether Kurdistan should declare its independence from Iraq. As such, the Production Sharing Contract ("PSC") model, which governs the Khalakan Block, has not been accepted by the Government of Iraq and the mechanism for cost recovery and profit payments has not been agreed to by the Kurdistan Regional Government and the Government of Iraq. Legal uncertainty in Iraq could negatively impact Issuer's investment in the Khalakan Block.
