

## FORM 7

### **MONTHLY PROGRESS REPORT**

Name of Listed Issuer: [Go Cobalt Mining Corp.](#) (the "Issuer").

Trading Symbol: [GOCO](#)

Number of Outstanding Listed Securities: [62,031,433 common shares were issued and outstanding as of April 30, 2019](#)

Date: [May 1, 2019 \(for the month of April, 2019\)](#)

This Monthly Progress Report must be posted before the opening of trading on the fifth trading day of each month. This report is not intended to replace the Issuer's obligation to separately report material information forthwith upon the information becoming known to management or to post the forms required by Exchange Policies. If material information became known and was reported during the preceding month to which this report relates, this report should refer to the material information, the news release date and the posting date on the Exchange website.

This report is intended to keep investors and the market informed of the Issuer's ongoing business and management activities that occurred during the preceding month. Do not discuss goals or future plans unless they have crystallized to the point that they are "material information" as defined in the Policies. The discussion in this report must be factual, balanced and non-promotional.

#### **General Instructions**

- (a) Prepare this Monthly Progress Report using the format set out below. The sequence of questions must not be altered nor should questions be omitted or left unanswered. The answers to the items must be in narrative form. State when the answer to any item is negative or not applicable to the Issuer. The title to each item must precede the answer.
- (b) The term "Issuer" includes the Issuer and any of its subsidiaries.
- (c) Terms used and not defined in this form are defined or interpreted in Policy 1 – Interpretation and General Provisions.

#### **Report on Business**

1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.

[The Issuer is an exploration stage company whose primary activities are acquiring and exploring mineral properties. The Issuer has a 100% interest in the Monster Property located 80 km north of Dawson City, Yukon, it has a 10% working interest in the Wels Gold project located in the Yukon, it has entered into](#)

an acquisition agreement to acquire a 100% interest in a resource exploration property located in Quebec known as the Barachois Property and it recently staked a 40 claim 2000 Ha nickel-copper-platinum group elements project in Quebec. The Issuer continues to seek opportunities in its primary activities.

2. Provide a general overview and discussion of the activities of management.

During the month of **April 2019**, management's principal activities consisted of providing an update regarding the gravity inversion survey it received on the Monster Property, providing an update regarding a data compilation it received on the Barachois Project and general administration matters.

3. Describe and provide details of any new products or services developed or offered. For resource companies, provide details of new drilling, exploration or production programs and acquisitions of any new properties and attach any mineral or oil and gas or other reports required under Ontario securities law.

During the month of **April 2019**, the Issuer advised that it had completed a gravity inversion survey on the Monster Property, highlights include:

- Several large gravity highs have been identified and are locally associated with large magnetic highs and multi-element surface mineralization.
- The new Beast target consists of a large near-surface magnetic high and gravity high, indicative of buried IOCG mineralization.
- The large scale "bullseye" radiometric anomaly at the Arena target is also underlain and connected to a large gravity high.
- The Issuer has reprocessed 584 historical gravity stations and completed the first ever 3D gravity inversion on the Monster project using a newly acquired high-resolution digital elevation model.
- Based on the positive results, the Issuer is planning to enhance and expand the coverage of the gravity survey in the coming field season in order to determine the extent of the potential subsurface mineralization.

Results received from the gravity inversion survey will assist the Issuer in planning its summer work program on the Monster Property.

The Issuer also provided an update regarding a data compilation on the optioned Barachois Project highlights include:

- Two types of mineralization identified on the Barachois claims.
- Surface showings in Carboniferous sediments line up with Troisième Lac fault.
- Plans for two-phase field program.

The delivery of the data compilation and literature review by Ronacher MacKenzie Geoscience marks the completion of the first out of three phases of work planned on the Barachois this year. The following phase includes a field visit with detailed mapping, chip and possibly channel sampling. Based on the results of the field visit a geophysical survey will be designed to target the

vanadium mineralization. This geophysical survey is the third phase of the planned work.

4. services that were discontinued. For resource companies, provide details of any drilling, exploration or production programs that have been amended or abandoned.

There were no products or services discontinued during the month of **April 2019**.

5. Describe any new business relationships entered into between the Issuer, the Issuer's affiliates or third parties including contracts to supply products or services, joint venture agreements and licensing agreements etc. State whether the relationship is with a Related Person of the Issuer and provide details of the relationship.

There were no new business relationships entered into between the Issuer, the Issuer's affiliates or third parties including contracts to supply products or services, joint venture agreements and licensing agreements during the month of **April 2019**.
