

Citation Growth Corp. (formerly, Liht Cannabis Corp.) Announces Final State Approvals for Extraction Lab and Manufacturing Kitchen

KELOWNA, BRITISH COLUMBIA – June 26, 2019 – **Citation Growth Corp.** (formerly, Liht Cannabis Corp.) (CSE: **CGRO**) (OTCQX: **LIHTD**) ("**Citation**" or the "**Company**"), a licensed cannabis cultivator and producer, is pleased to announce that, further to the Company's press release dated June 4, 2019, it has successfully passed all local building and electrical inspections for its extraction lab and manufacturing kitchen and has been granted final approval by the State of Nevada to begin operations under the production license held by its wholly-owned subsidiary, EcoNevada LLC.

Through the utilization of closed-loop hydrocarbon extraction technologies from ExtractionTek Solutions – a leading Colorado-based extraction equipment manufacturer – the Company anticipates that it will be able to further maximize the value derived from its premium, organically-cultivated cannabis flower to produce a variety of high-margin products, including live resin, shatter, wax, and diamond sauce. Additionally, Citation plans to focus on underserved product areas, such as rosin and infused pre-rolls, as well as the discrete adult-use market, by producing both disposable and replaceable vape pens and cartridges.

Upon completion of the proposed transaction (the "**Proposed Transaction**") contemplated in the definitive agreement to acquire all of the equity interests of the **ACC Group of Companies** ("**ACC**"), announced June 17, 2019, Citation expects that it will be able to further utilize its North Las Vegas extraction facility to process ready-made throughput sourced from ACC's Pahrump, Nevada cultivation facility, in addition to Citation's internally-sourced flower, to ensure maximum operating efficiency of the Company's extraction equipment. Citation anticipates that this will quickly translate into an immediate and substantial volume of extract product that Company management expects will become readily available for sale to the Nevada cannabis market by the end of July 2019.

Rahim Mohamed, CEO of Citation Growth Corp. commented, "After receiving its final state approvals, Citation is excited to begin operations out of its extraction lab and manufacturing kitchen – allowing the Company the opportunity to unlock the entire value from its triple-certified, premium organic flower. Expanding the breadth of operational capabilities offered through our Nevada facility is a testament to the Company's plan for expansion throughout the cannabis value chain and realize its full potential as a premium North American producer of cannabis products."

These law firms inform any necessary changes to our policies and procedures for compliance in Canada and the U.S.

Unlike in Canada which has Federal legislation uniformly governing the cultivation, distribution, sale and possession of cannabis under the *Cannabis Act* (Canada), readers are cautioned that in the U.S., cannabis is largely regulated at the state level. To the knowledge of the Company, there are to date a total of 33 states, plus the District of Columbia, that have legalized cannabis in some form. Notwithstanding the permissive regulatory environment of medical cannabis at the state level, cannabis continues to be categorized as a controlled substance under the Controlled Substances Act in the U.S. and as such, cannabis-related practices or activities, including without limitation, the manufacture, importation, possession, use or distribution of cannabis are illegal under U.S. federal law. Strict compliance with state laws with respect to cannabis will neither absolve the Company of liability under the U.S. federal law, nor will it provide a defense to any U.S. federal proceeding, which may be brought against the Company. Any such proceedings brought against the Company may materially adversely affect its operations and financial performance in the U.S. market.
