**KELOWNA, BRITISH COLUMBIA** – July 24, 2019 – **Citation Growth Corp.** (formerly, Liht Cannabis Corp.) (**CSE: CGRO**) (**OTCQX: CGOTF**) ("**Citation**" or the "**Company**"), a licensed cannabis cultivator and producer, is pleased to provide an update on the proposed transaction (the "**Transaction**") to acquire all of the equity interests of the ACC Group of Companies ("**ACC**"), a Nevada-based group of companies licensed for cannabis cultivation and to provide an update for its Nevada operations.

## **ACC Integration**

In preparation for the anticipated July 31, 2019 closing of Citation's proposed acquisition of ACC contemplated in the definitive agreement (the "**Agreement**") announced June 17, 2019, the Company has begun post-acquisition integration planning to realize the anticipated merger benefits, including:

- Incoming Citation CEO Howard Misle, shall assume the responsibilities for all US operations, bringing a wealth of regulatory and operational experience to the rapidly expanding Nevada cannabis market;
- Current Citation CEO and resulting President, Rahim Mohamed, will oversee all Canadian operations as the Company continues the facility expansion on its Chase and Celistra, British Columbia properties;
- Citation's North Las Vegas master growers shall assist ACC's Pahrump cultivation efforts with the goal of improving the quality, grade, and yields of Pahrump's dry flower production by leveraging Citation's triple-certified organic production techniques; and
- Third-party sourced flower will be used to compliment Pahrump and North Las Vegas cultivation output to maximize the available input for the Company's production lab and extraction kitchen.

Rahim Mohamed, CEO of Citation commented, "The acquisition of ACC comes at an opportune time in the development of Citation, as its Nevada cultivation assets perfectly compliment the operational roll-out of our North Las Vegas production facility. After recently visiting each of the Pahrump and North Las Vegas assets, I am extremely impressed with the build-out and rapidly increasing functionality of both facilities. Combining the organic growth of Citation with the accretive scale ACC offers will provide Citation the chance to put the cannabis industry on notice that Citation Growth Corp. is ready to compete for the attention of cannabis consumers and investors alike."

## **North Las Vegas**

Citation continues to see growth in cultivation activity from its triple certified-organic, North Las Vegas facility, where the Company has produced consistent bi-weekly harvests of its premium cannabis cultivars. The Company is happy to report its perpetual harvest program continues to see increased yields and is close to maximizing the genetic potential of its biomass through organic living soil protocols. Citation has also secured new child-proof packaging for its premium flower products - with talks currently underway for the design of branded packaging of its highly anticipated concentrate brands. Further, Citation is pleased to

report that over the past two (2) months the Company has sold 42 kg of dried cannabis through its licensed retail partner's two (2) recreational cannabis locations.

### **Marijuana Industry Involvement:**

The Company owns marijuana licenses in California and Nevada. Marijuana is legal in each state; however, marijuana remains illegal under United States federal law and the approach to enforcement of U.S. federal law against marijuana is subject to change. Shareholders and investors need to be aware that federal enforcement actions could adversely affect their investments and that the Company's ability to support continuing U.S.-based operations and its access private and public capital could be materially adversely affected.

The Company's business is conducted in a manner consistent with state law and is in compliance with applicable state licensing requirements in the U.S. The Company has internal compliance procedures in place and has compliance focused attorneys engaged in jurisdictions to monitor changes in laws for compliance with U.S. federal and state law on an ongoing basis. These law firms inform any necessary changes to our policies and procedures for compliance in Canada and the U.S.

Unlike in Canada which has Federal legislation uniformly governing the cultivation, distribution, sale and possession of cannabis under the *Cannabis Act* (Canada), readers are cautioned that in the U.S., cannabis is largely regulated at the state level. To the knowledge of the Company, there are to date a total of 33 states, plus the District of Columbia, that have legalized cannabis in some form. Notwithstanding the permissive regulatory environment of medical cannabis at the state level, cannabis continues to be categorized as a controlled substance under the Controlled Substances Act in the U.S. and as such, cannabis-related practices or activities, including without limitation, the manufacture, importation, possession, use or distribution of cannabis are illegal under U.S. federal law. Strict compliance with state laws with respect to cannabis will neither absolve the Company of liability under the U.S. federal law, nor will it provide a defense to any U.S. federal proceeding, which may be brought against the Company. Any such proceedings brought against the Company may materially adversely affect its operations and financial performance in the U.S. market.

Currently, listings of Canadian companies on the CSE will remain in good standing as long as they provide the disclosure that is required by the applicable Canadian securities regulators and complying with applicable licensing requirements and the regulatory framework enacted by the applicable state in which they operate.
