

## **THERAMED PROVIDES OPERATIONAL UPDATE FOR NEVADA LAB**

**VANCOUVER, BC, Wednesday, September 17, 2019, – THERAMED HEALTH CORP.** (CSE: TMED, OTCQB: EVAHF) (the “**Company**”) is pleased to announce that it has received final sign off on its operational permits for its Nevada hemp extraction lab and has completed commissioning of its Vitalis CO2 hemp extraction system.

While the permitting process has been underway, the Company has focused on building distribution opportunities, researching product lines and developing marketing programs for the brands it has created. “With operational status at hand, the Company is eager to drive their products into the CBD market in the United States.” Commented C.K. Cheung, CEO of Theramed.

The Nevada lab produces high quality hemp derived CBD distillates and crude for use in the Company’s products, third party white label products and raw material for sale.

The Company continues to develop products, technologies, and diagnostic tools focused on hemp derived CBD. The products will serve with the overall goal of improving health and elevating the human condition.

## **About THERAMED HEALTH**

*(CSE: TMED, OTCQB: EVAHF)*

**Theramed Health Corporation** – is a technology company focused in the healthcare and life sciences sector to develop a personalized healthcare system. The company has recently been focused on utilizing CBD derived from Hemp as a core component. The company through its subsidiaries has assets and technologies involved in extracting and purifying CBD extracts, creating formulations through its key scientists, and with its medical device technology monitoring capabilities. Theramed’s unique combination of technologies may allow it to be the first to be able to offer a complete quality assured vertically integrated “CBD Health System” for monitoring, dosing, and recording the effects of CBD on your cardiovascular system.
