17. Discuss any trends, which are likely to impact the Issuer including trends in the Issuer's market(s) or political/regulatory trends.

The Issuer's flagship investments are in Washington State and currently management expects the legal and regulatory regimes in the United States (on a federal level), Washington State, and Canada to be the most relevant to its business.

United States

While the use of cannabis appears to be substantially increasing at the statelegalized level in the United States, the status of Federal legalization of cannabis in is uncertain. On February 14, 2019, William Barr was confirmed by the U.S. Senate as the next Attorney General. On January 15, 2019, during his confirmation hearing, Mr. Barr indicated that he personally believes cannabis should remain illegal but he also stated that if confirmed, he would not "go after companies that have relied on the 2013 Cole Memorandum and that his approach with regard to federal cannabis law enforcement would be "not to upset settled expectations." Mr. Barr's approach to cannabis federal law enforcement may prove less aggressive than Attorney General Session's get-tough on cannabis stance and could reduce the uncertainty stemming from Attorney General Session's tenure. However, Mr. Barr has made it clear that he does not support federal legalization and until he begins implementing these policies, considerable uncertainty remains. Jeff Sessions the former U.S. Attorney General was publicly opposed to the use of cannabis and on January 4, 2018, rescinded the Cole Memorandum, stating it was unnecessary. The Cole Memorandum was a document formerly issued by the Attorney General's office (2013/2014) that gave guidance to prosecutors to focus their enforcement resources for marijuana offences on 8 priorities, including preventing distribution to minors, preventing revenue from going to organized crime and preventing impaired driving. It is likely that the States which have legalized marijuana for medical and/or recreational uses will fight any prohibition on the production, sale and use of cannabis, as they are receiving significant amounts of tax revenue in connection with these activities. The rescission of the Cole Memorandum introduced uncertainty to the market for the Company's products. On December 20, 2018, the Agriculture Improvement Act of 2018 (the

“2018 Farm Bill”) was passed into law. Marked as genuinely historic for the cannabis industry, the passing of the 2018 Farm Bill has removed all confusion associated with “industrial hemp”. While the Issuer has always utilized organically sourced US Dept. of Agriculture approved industrial hemp in its CBD products, “hemp”, defined as “the plant Cannabis sativa L. and any part of that plant, including the seeds thereof and all derivatives, extracts, cannabinoids, isomers, acids, salts, and salts of isomers, whether growing or not, with a delta-9 tetrahydrocannabinol concentration of not more than 0.3 percent on a dry weight basis,” has now been officially removed from the Controlled Substances Act in the United States. While the Issuer is still assessing the various implications of the new law, the development is extremely positive for the Issuer and its future development plans in the U.S. and elsewhere. The safety of CBD and cannabis related products will remain of paramount importance for the Issuer and will continue to be a focus for consumers and regulators alike. Regulation of the industry is expected to increase, including new regulations anticipated from the US Food and Drug Administration (FDA). Despite these challenges and a general lack of access to banking, the cannabis industry has so far enjoyed access to capital markets. The situation is constantly evolving and there is a great degree of uncertainty over how matters will be settled, however, it is likely that these US states that have legalized cannabis will fight any prohibition on its use as they are receiving significant amounts of tax revenue from the sale of cannabis. Despite the legal, regulatory, and political obstacles the marijuana industry currently faces, the industry has continued to grow.

Washington State

On October 16, 2017, the Canadian Securities Administrators published Staff Notice 51-352 Issuers with U.S. Marijuana-Related Activities (“Staff Notice 51- 352”) which provides specific disclosure expectations for issuers that currently have, or are in the process of developing, cannabis-related activities in the United States as permitted within a particular state’s regulatory framework. All issuers with United States cannabis-related activities are expected to clearly and prominently disclose certain prescribed information in prospectus filings and other required disclosure documents. As a result of the Issuer’s investments in certain United States entities, the Issuer is subject to Staff Notice 51-352. See also the Issuer’s CSE Form 2A Listing Statement dated May 28, 2019.
