Marijuana Industry Involvement:

The Company owns marijuana licenses in California and Nevada. Marijuana is legal in each state; however, marijuana remains illegal under United States federal law and the approach to enforcement of U.S. federal law against marijuana is subject to change. Shareholders and investors need to be aware that federal enforcement actions could adversely affect their investments and that the Company's ability to support continuing U.S.-based operations and its access private and public capital could be materially adversely affected.

The Company's business is conducted in a manner consistent with state law and is in compliance with applicable state licensing requirements in the U.S. The Company has internal compliance procedures in place and has compliance focused attorneys engaged in jurisdictions to monitor changes in laws for compliance with U.S. federal and state law on an ongoing basis. These law firms inform any necessary changes to our policies and procedures for compliance in Canada and the U.S.

Unlike in Canada which has Federal legislation uniformly governing the cultivation, distribution, sale and possession of cannabis under the *Cannabis Act* (Canada), readers are cautioned that in the U.S., cannabis is largely regulated at the state level. To the knowledge of the Company, there are to date a total of 33 states, plus the District of Columbia, that have legalized cannabis in some form. Notwithstanding the permissive regulatory environment of medical cannabis at the state level, cannabis continues to be categorized as a controlled substance under the Controlled Substances Act in the U.S. and as such, cannabis-related practices or activities, including without limitation, the manufacture, importation, possession, use or distribution of cannabis are illegal under U.S. federal law. Strict compliance with state laws with respect to cannabis will neither absolve the Company of liability under the U.S. federal law, nor will it provide a defense to any U.S. federal proceeding, which may be brought against the Company. Any such proceedings brought against the Company may materially adversely affect its operations and financial performance in the U.S. market.

Currently, listings of Canadian companies on the CSE will remain in good standing as long as they provide the disclosure that is required by the applicable Canadian securities regulators and complying with applicable licensing requirements and the regulatory framework enacted by the applicable state in which they operate.
