PRESS RELEASE

AREV INTERNATIONAL BRANDS LTD. CORPORATE UPDATE

Vancouver, British Columbia, February 26, 2019 – AREV Brands International Ltd. ("AREV" or the "Company") (CSE - AREV), is pleased to announce that they have closed both the property purchase to acquire real estate in Sorrento, British Columbia and the Cana Gold asset purchase, both announced in January 2019. The Company would like to give the shareholder's an update on our progress toward our vision for the Company.

AREV is an integrated natural health and therapeutics company with a focus on manufacturing innovative products that can utilize cannabis in their formulations. Our business is not to cultivate cannabis for use in the dried flower business. It is to focus on genetics and work with LP's who are able to contract grow our genetics for us to repurchase for extraction into ingredients that will be used in our formulations.

In Canada, under the new Cannabis act, cannabis becomes a whole new legal industry. According industry research the edibles market is expected to out pace the dried flower market in 2019. Value-add processing of unique and innovative products will be the new driver in the market. Under this model LP's will be growers and suppliers of extracts and edibles in addition to dried flower. AREV is poised to form form partnerships with LP's for extraction and processing.

We have engaged Spire Secure Logistics Inc. to consult on obtaining a Hemp Cultivation License on the 28 acre Sorrento BC property and have initiated the construction of a 8,500 square foot processing facility, expected to be completed in the third quarter of 2019. The company has an extraction system and a soft gel cap machine to be installed at the new facility.

AREV has 8 products registered with Health Canada which have Natural Health Product numbers and a line of award winning topical creams, sticks and oils for pain management and skin care. We also recently acquired the High Times award winning line of Cannagold Vape Pens and concentrates.

Through our ownership in BC Bud Depot and with the assistance of our newest Director Mr. Leo Ford, we are able to start a breeding business in Columbia where we will be registering our genetics. Matt Harvey, the founder of the company recently visited Columbia and will be working with Leo to launch the business in Latin America. Matt has been developing and breeding cannabis for seeds and new strains successfully for over 20 years. As a result we own an extensive line of award winning stains and genetics. BC Bud Depot has one of the largest and revered seed banks in the world containing hundreds of genetics of which over 40 have won Cannabis Cups in International competitions. Our breeders are some of the best in the world.
