

## Draganfly Partners with and Sponsors the Levis Trophy Truck at the Baja 1000

Vancouver, British Columbia, Nov. 22, 2019 (GLOBE NEWSWIRE) -- Draganfly Inc. (CSE: DFLY) (FSE: 3U8) (“**Draganfly**” or the “**Company**”), an award-winning, industry-leading systems developer within the commercial Unmanned Aerial Vehicle (“**UAV**”) and the Unmanned Vehicle Systems (“**UVS**”) space, is pleased to be a part of the Levis Trophy Truck Team Driven by Ryan Arciero alongside Levis, Seaspan ULC, and BN3TH apparel at the Baja 1000.

The Baja 1000 is held annually in November on the Baja Peninsula and covers 800.5 miles of grueling course. Traditionally it is hard to track the vehicles on foot or by car and as a result, the teams have relied on the use of helicopters for their aerial filming and medical support.

“This is off-road racing’s oldest and most prestigious competition and we’re honored to be a part of such a winning team. Starting in the pole position has placed our Draganfly brand among other strong and established brands in this industry, and we couldn’t be more proud. From low visibility to austere terrain, to harsh weather, many of the challenges teams encounter during this grueling event, are ones our award-winning team of engineers can help our customers overcome in other industries. We’re excited about the impact the Draganfly team can make on this sport.” said Patrick Imbasciani, COO of Draganfly.

Coming off of a victory at the first-ever Baja 400, [Racer.com](http://Racer.com) and others say that Ryan Arciero, alongside teammate Dan McMillin, is among the top three favored to win this year’s race in a field stacked with heavyweights associated with iconic brands that include Monster Energy, Red Bull, Rockstar, BFGoodrich, Ford Performance, Chevy Performance, CanAm, Polaris, and Yokohama.

“UAV’s in this sport is a game-changer,” said Levis Trophy Truck driver Ryan Arciero “Utilizing UAVs as part of our race team will have an advantage from both a safety and data set perspective. Having Draganfly as our partner in technology is allowing us to be prepared and stay safe on the track.”

After a one-day delay due to weather conditions, the Baja 1000 will begin at 10:30 am PST on November 23, 2019.

### Forward-Looking Statements

This release contains certain “forward looking statements” and certain “forward-looking information” as defined under applicable Canadian securities laws. Forward-looking statements and information can generally be identified by the use of forward-looking terminology such as “may”, “will”, “expect”, “intend”, “estimate”, “anticipate”, “believe”, “continue”, “plans” or similar terminology. Forward-looking statements and information are based on forecasts of future results, estimates of amounts not yet determinable and assumptions that, while believed by management to be reasonable, are inherently subject to significant business, economic and competitive uncertainties, and contingencies. Forward-looking statements and information are subject to various known and unknown risks and uncertainties, many of which are beyond the ability of the Company to control or predict, that may cause the Company’s actual results, performance or achievements to be materially different from those expressed or implied thereby, and are developed based on assumptions about such risks, uncertainties and other factors set out herein, including but not limited to: the inherent risks involved in the general securities markets; uncertainties relating to the availability and costs of financing needed in the future; the inherent uncertainty of cost estimates and the potential for unexpected costs and expenses, currency fluctuations; regulatory restrictions, liability, competition, loss of key employees and other related risks and uncertainties. The Company undertakes no obligation to update forward-looking information except as required by applicable law. Such forward-looking information represents managements’ best judgment based on information currently available. No forward-looking
