

KOPR Point Provides Update on Corporate Direction and Advisory Board

VANCOUVER—February 25, 2019— KOPR Point Ventures Inc. (CSE: KOPR / OTC: NPEZF / FSE: 4NP) (“**KOPR**” or the “**Company**”) offers a corporate update on overall direction and focus.

New management and the Board of Directors of the Company have unanimously agreed to focus overall corporate direction on later stage copper and copper/gold assets. Management has been mandated to focus on safe, mining friendly jurisdictions and government regulations supportive of mining operations, globally.

To facilitate this company focused direction, KOPR is pleased to announce that Buster Chairnof has graciously agreed to assume the role of Chairman for the KOPR Advisory Board. Mr. Chairnof will spearhead the identification, review and initial discussion on global copper and copper/gold assets.

Mr. Greenway states:

“Global copper prices are at a level whereby we feel acquisitions and development of world class copper and copper/gold assets is paramount to shareholder appreciation! The Board, management and our strategic advisors all agree that global undersupply of copper will become obvious to investors through 2022 and continue to appreciate the underlying asset through 2027. Our focus on this asset class should result in a demonstrated value appreciation to shareholders.”
