Number of Outstanding Listed Securities: [62,031,433 common shares were issued and outstanding as of March 31, 2020](#)

Date: [April 2, 2020 \(for the month of March 2020\)](#)

This Monthly Progress Report must be posted before the opening of trading on the fifth trading day of each month. This report is not intended to replace the Issuer's obligation to separately report material information forthwith upon the information becoming known to management or to post the forms required by Exchange Policies. If material information became known and was reported during the preceding month to which this report relates, this report should refer to the material information, the news release date and the posting date on the Exchange website.

This report is intended to keep investors and the market informed of the Issuer's ongoing business and management activities that occurred during the preceding month. Do not discuss goals or future plans unless they have crystallized to the point that they are "material information" as defined in the Policies. The discussion in this report must be factual, balanced and non-promotional.

General Instructions

- (a) Prepare this Monthly Progress Report using the format set out below. The sequence of questions must not be altered nor should questions be omitted or left unanswered. The answers to the items must be in narrative form. State when the answer to any item is negative or not applicable to the Issuer. The title to each item must precede the answer.
- (b) The term "Issuer" includes the Issuer and any of its subsidiaries.
- (c) Terms used and not defined in this form are defined or interpreted in Policy 1 – Interpretation and General Provisions.

Report on Business

1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.

[The Issuer is an exploration stage company whose primary activities are acquiring and exploring mineral properties. The Issuer has a 100% interest in the Monster Property located 80 km north of Dawson City, Yukon, it has a 10% working interest in the Wels Gold project located in the Yukon and it recently](#)

increased its lands mass to 4,240 Ha at its HSP Nickel-Copper-PGE project in Quebec.

The Issuer continues to seek opportunities in its primary activities.

2. Provide a general overview and discussion of the activities of management.

During the month of **March 2020**, management's principal activities consisted of the following:

- general administration matters;
- the preparation and filing of the Issuer's interim financial statements and corresponding management's discussion and analysis for the 2nd quarter ended January 31, 2020; and
- providing a corporate update and advising of results from geological and geophysical work on the Monster Property and results from an EM survey on the HSP Nickel-Copper PGR project.

3. Describe and provide details of any new products or services developed or offered. For resource companies, provide details of new drilling, exploration or production programs and acquisitions of any new properties and attach any mineral or oil and gas or other reports required under Ontario securities law.

During the month of March 2020, the Issuer provided an update on results it received from geological and geophysical work on the Monster Property. The updates included:

- Two separate targets on the Monster Property are now drill-ready. The Beast target is an offset gravity and magnetic high which we believe to be evidence for a redox front in the form of a transition between magnetite and hematite. The Beast target has a depth to top of about 70 – 100m. Chemical alteration vectors increase towards the target, further highlighting its potential. The Bloom target, several kilometers east of the Beast target, is focused on a positive gravity anomaly that overlaps a positive magnetic anomaly. The Bloom target is confirmed by several mineralized showings that grade up to 9.6% Co, 1.2 g/t Au and >1% Cu.
- The final gravity processing has been completed and reaffirms the Bloom and Beast target. Results of 28 rock samples that were analysed for geophysical properties as well as geochemistry indicate a moderate correlation between gravity and mineralization, highlighting the potential of positive gravity anomalies to be indicative of buried mineralization. Samples were sent to Groundtruth Exploration in Dawson, YT for geophysical property measurements. Following measurement samples were sent by truck to the Issuer, which sent part of the sample to MS Analytical in Langley for geochemical measurements. Samples were dried, crushed and pulverized according to preparation method PRP-710 and analyzed through Aqua Regia ICP-AES/MS according through method IMS-131. Samples with more than 1% Co were analyzed through ore grade aqua regia ICP-AES according through method ICA-6Co and samples with Au over 0.01 ppm were analyzed through fire assay FAS-

415. Blanks and duplicates were inserted according to MS Analytical's standard procedures. All lab standards and duplicates fall within acceptable limits.

The Issuer provided an update on results it received from an EM survey on the HSP Nickel-Copper PGR project. The update included:

- New EM survey results have highlighted great potential for summer targets at the property 90 km north of Havre-Saint-Pierre. The HSP area is underexplored for nickel despite having surficial massive to disseminated sulphides. HSP is polymetallic with high-grade nickel and copper with PGEs including Platinum and Palladium on the surface.

The trends and risks which are likely to impact the Issuer are detailed in the Issuer's Management Discussion and Analysis for the 2nd quarter ended January 31, 2020 dated as of March 26, 2020 (the "MD&A") under the headings "Financial Instruments", "Risks" and "Risks and Uncertainties". The MD&A is available on the Issuer's SEDAR profile at www.sedar.com and on the Issuer's disclosure hall with the CSE at www.thecse.com

In addition to the trends and risks detailed in the MD&A, COVID-19 is likely to impact the Issuer:

COVID-19

The outbreak of the corona virus pandemic has impacted the Issuer's plans and activities. The Issuer may face disruption to operations, travel and trade restrictions and impact on economic activity in affected countries or regions can be expected and can be difficult to quantify. Such pandemics or diseases represent a serious threat to maintaining a skilled workforce industry and could be a major health-care challenge for the Issuer. There can be no assurance that the Issuer's personnel will not be impacted by these pandemic diseases and ultimately that the Issuer would see its workforce productivity reduced or incur increased medical costs/insurance premiums as a result of these health risks. In addition, the COVID-19 pandemic has created a dramatic slowdown in the global economy. The duration of the COVID-19 outbreak and the resultant travel restrictions, social distancing, Government response actions, business closures and business disruptions, can all have an impact on the Issuer's operations and access to capital. There can be no assurance that the Issuer will not be impacted by adverse consequences that may be brought about by the COVID-19 pandemic on global financial markets may reduce resource prices, share prices and financial liquidity and thereby that may severely limit the financing capital available.
