About CB2 Insights

CB2 Insights (CSE:CBII OCT:CBIIF) CB2 Insights is a healthcare services and technology company, working to positively impact patient health outcomes. Our mission to mainstream alternative health treatments into traditional healthcare by recognizing the need for patient treatment diversity, and the impacts of integrating alternative and conventional medicine. The Company works primarily to roster and treat patients who are seeking alternative treatments due to the ineffectiveness of conventional medicine, and the inability to find support through their existing care network, or in some cases, inability to access a primary care network. Medical services offered by the Company are defined as Integrative medicine, where we work to understand the real world evidence for the safety, impact and effectiveness of medical treatments including plant based medicines that often lack sufficient research and therefore adoption by conventional healthcare providers.

To support patient care and positive health outcomes, the Company is also focused on advancing safety and efficacy research surrounding alternative health treatments by monitoring and assessing Real-World

Data (RWD) and providing Real-World Evidence (RWE) through our proprietary technology, data analytics, and a full service contract research organization.

The Company's primary operations are in the United States, with application to its insights, technology and research services deployed in other International markets including Canada, United Kingdom and Colombia.

The Company's disciplined operating model, allows patients to receive access to care in a time efficient and cost-effective manner. Utilizing virtual telehealth and over 30 physical brick and mortar clinics, the Company currently treats over 100,000 patients across 12 States. Utilizing proprietary technology and data analytic platforms, the Company is able to monitor, study and assess a variety of healthcare treatments and products for the safety, efficacy and effectiveness. The Company believes it is well positioned to be the research and technology partner of choice for multiple stakeholders including Big Pharma, Life Sciences, Regulatory Bodies and Payors within the traditional and integrative medical industry.
