

## **SOFTLAB9 CORRECTS SEPTEMBER 11, 2020 PRESS RELEASE ON CLEANGO GREENGO ACQUISITION**

**NOT FOR DISTRIBUTION TO U.S. NEWS WIRE SERVICES OR FOR DISSEMINATION IN THE UNITED STATES**

**September 14, 2020 – Vancouver, BC.** Softlab9 Technologies Inc. (CSE: SOFT; Frankfurt: APO2; OTC: SOFSF) ("**SOFT**" or the "**Company**"), would like to correct and clarify its new release issued on September 11, 2020 (the "**September 11<sup>th</sup> News Release**").

In the September 11<sup>th</sup> News Release, the Company indicated that it had received an extension from the Alberta Securities Commission (the "**ASC**") to complete its acquisition (the "**Transaction**") of Clean Go Green Go Inc. ("**CleanGo**"). This is incorrect. The ASC has had no role or oversight regarding the Transaction and there should not have been any reference to the ASC in the September 11<sup>th</sup> News Release.

The Transaction regarding the acquisition of CleanGo is progressing, and the parties have entered into an agreement amending their letter of intent to extend the timeline. The parties expect to sign a definitive agreement on or before October 15, 2020.

### **CleanGo GreenGo Operational Update**

CleanGo continues to increase sales and market penetration of its cleaning and sanitation solutions.

We understand that companies are worried about the resurgence of COVID-19 Corona Virus and are diligently sanitizing and disinfecting their premises on a regular basis. The uncertainty of what can come is a heavy weight on the shoulders of business owners today. CleanGo's fogging solution has proven its effectiveness in reducing bacteria and viruses.

Fogging is used predominately for the application of disinfectants, biocides, fungicides and pesticides. The fogging equipment generates a fog or mist formed of Ultra Low Volume droplets. Through vaporisation, airborne and surface-based pathogens are destroyed, so there is no need to move furniture or equipment around for the treatment to work. Fogging is probably the quickest and easiest way to disinfect large areas with minimum disruption to both you and your business.

CleanGo is looking to expand its fogging business across the country using its proprietary patent pending technology. Additional information can be found on CleanGo's fogging website.

Rahim Mohamed, CEO of Softlab9 said, "We continue to push the transaction forward with an aim to have everything completed by next month. With flu season just around the corner, we want to be ready to help people and businesses stay safe."

### **About CleanGo GreenGo Inc.**

### **Forward-looking Information**

*This news release contains forward-looking statements and forward-looking information (collectively, "forward-looking statements") within the meaning of applicable Canadian and U.S. securities legislation, including the United States Private Securities Litigation Reform Act of 1995. All statements in this presentation that are not purely historical are forward-looking statements and include statements regarding beliefs, plans, expectations, and orientations regarding the future, including without limitation statements related to the Company's prospect of success in executing its proposed plans, including its plans to complete the Transaction of the acquisition of CleanGo and the prospects for CleanGo's business. Forward-looking statements can often be identified by words such as "will", "plans", "expects", "may", "intends", "anticipates", "believes", "proposes" or variations of such words including negative variations thereof and phrases that refer to certain actions, events or results that may, could, would, might or will occur or be taken or achieved. Forward-looking statements are based on certain assumptions by management regarding the Company, including, without limitation, investor interest in the Private Placement, and the Company's ability to acquire CleanGo and obtain required regulatory approvals and the timing thereof. Actual results could differ from those projected in any forward-looking statements due to numerous factors including, risks and uncertainties relating to the inability of the Company, to, among other things, obtain any required governmental, regulatory or stock exchange approvals, permits, consents or authorizations required to execute its proposed business plans, and obtain the financing required to carry out its planned future activities. Other factors such as general economic, market or business conditions or changes in laws, regulations and policies affecting the Company's operations may also adversely affect the future results or performance of the Company. The Company can provide no guarantee that it will be successful in completing the Transaction. Investors are cautioned that forward looking statements are not*

*guarantees of future performance or events and, accordingly are cautioned not to put undue reliance on forward-looking statements due to the inherent uncertainty of such statements. The forward-looking statements included in this news release are made as of the date hereof and the Company does not intend to update or revise any forward-looking statements, except as expressly required by law.*
