

FREEMAN GOLD FURTHER CONSOLIDATES LAND PACKAGE WITHIN HISTORICAL RESOURCE AREA OF THE LEMHI GOLD PROJECT

CANADIAN SECURITIES EXCHANGE: FMAN

FOR IMMEDIATE RELEASE

VANCOUVER, BRITISH COLUMBIA – September 15, 2020 – Freeman Gold Corp. (CSE:FMAN) (FSE:3WU) (“Freeman” or the “Company”) is pleased to announce that it has acquired the Moon #100 and Moon #101 unpatented mining claims (“Moon Claims”), located within the historical resource area of the Company’s 100% owned Lemhi gold project, located in Idaho, USA (“Lemhi” or “Project”). The Moon Claims are located towards the northern portion of the historical resource area in the immediate vicinity of historical drill holes 86065, 93002 and 93005 which contain significant gold mineralization including both broad (193.55 meters of 1.8 grams per tonne gold (‘g/t Au’)) and high grade (57.91 meters of 4.09 g/t Au) gold intercepts (Table 1).

TABLE 1. SELECT HISTORIC DRILL INTERCEPTS IN THE VICINITY OF THE MOON CLAIMS - LEMHI PROJECT

Hole_ID	Year	Type of Drilling	From m	To m	Interval** m	g/t Au
86065	1986	Reverse Circulation	16.76	30.48	13.72	3.11
86065	1986	Reverse Circulation	60.96	135.64	74.68	1.87
93002	1993	Reverse Circulation	1.52	181.36	179.83	1.81
including	1993	Reverse Circulation	28.96	45.72	16.76	4.07
including	1993	Reverse Circulation	59.44	117.35	57.91	4.09
93005	1993	Reverse Circulation	3.05	196.60	193.55	1.80
including	1993	Reverse Circulation	80.77	155.45	74.68	3.20

**Intervals are core-length. True width is estimated between 70 to 90% of core length.

Will Randall, President & CEO, commented, “When Freeman acquired the Lemhi gold project management was cognizant that two transactions were required to substantially de-risk the Project’s property package. The first item was to extinguish the back-in rights (please refer to announcement dated September 8, 2020), and the second was to acquire the remaining unowned claims within the resource area. The acquisition of the Moon Claims achieves this objective and mitigates the risk of limiting future resource estimates by excluding any ounces contained within the claims and, just as importantly, limiting further ounces due to pit design constraints. The Moon Claims have historical drilling with significant intercepts within and in the immediate vicinity of the claims that we can now incorporate into future work. Freeman now has a complete property package without any back-in rights. As a result, we can focus on our ongoing drill campaign without property constraints to maximize the potential resource.”

Details of the Transaction

Freeman acquired 100% ownership of the Moon Claims pursuant to a Purchase and Sale Agreement between Freeman and the previous owner of the Moon Claims (the "**Seller**"), pursuant to which Freeman paid the Seller cash consideration of US\$150,000.00 as well as issuing 375,000 common shares in the capital of Freeman to the Seller. The transaction was not subject to a finder's fee or brokerage commission.

About the Company

Freeman Gold Corp. is a mineral exploration company focused on the development of its 100% owned Lemhi Gold property (the "Lemhi Project"). The Lemhi Project comprises 30 square kilometers of highly prospective land. The mineralization at the Lemhi Project consists of shallow, near surface primarily oxide gold mineralization that has seen over 355 drill holes but remains open at depth and along strike and in most directions. The Company is working towards de-risking the asset and producing a maiden NI 43-101 resource estimate as a result of both brownfields and greenfields exploration. The technical content of this news release has been reviewed and approved by Dean Besserer, P.Geol., the VP Exploration for the Company and a Qualified Person as defined by National Instrument 43-101.

On Behalf of the Company

William Randall, President & CEO of Freeman Gold
