17. Discuss any trends which are likely to impact the Issuer including trends in the Issuer's market(s) or political/regulatory trends.

The recent outbreak of the coronavirus, also known as "COVID-19", has spread across the globe and is impacting worldwide economic activity. Overall, to date, the COVID-19 pandemic has not had a material impact on the business and operations of Link, and the Issuer is continuing as usual outside of restrictions imposed by the pandemic.

Prior to the outbreak of COVID-19: (i) Link was focussed on expanding its operations in Alberta, Canada, and away from its Oregon-based operations, thereby reducing any negative effects of travel restrictions and cross-border activity arising as a result of COVID-19; (ii) Link's management and consultants interacted and communicated remotely, using technology and other virtual methods of communication, thereby reducing any negative effects of social distancing guidelines imposed due to COVID-19; and (iii) movement, delivery and operation of the Issuer's cryptocurrency mining machines was not affected by measures taken to counter the outbreak. Throughout the pandemic, the Issuer was able to continue and complete phase one of the commissioning of its cryptocurrency mining operations in Alberta, without any undue delay or issues arising from COVID-19.

Notwithstanding the foregoing, conditions surrounding the coronavirus continue to evolve and government authorities have implemented emergency measures to mitigate the spread of the virus. The extent to which the coronavirus may impact the Issuer's ongoing business activities will depend on future developments, such as the ultimate geographic spread of the disease, the duration of the outbreak, travel restrictions, business disruptions, and the effectiveness of actions taken in Canada and other countries to contain and treat the disease. These events are highly uncertain and as such, the Issuer cannot determine their overall financial impact at this time. The Issuer will continue to closely monitor and assess the impact of COVID-19 on its business and operations.
