- (c) Terms used and not defined in this form are defined or interpreted in Policy 1 – Interpretation and General Provisions.

#### **Report on Business**

1. Provide a general overview and discussion of the development of the Issuer’s business and operations over the previous month. Where the Issuer was inactive disclose this fact.

[The Issuer is a Canadian gold exploration company based in Vancouver. The Issuer seeks exciting data rich gold projects with low capital requirements. The Issuer holds a 100% interest in three Canadian gold projects, the Sixty Mile Project located in within west-central Yukon Territory, the New Brenda project located in the Similkameen, Nicola, and Osoyoos Mining Divisions, BC and the](#)

Ashuanipi Project located 30 to 90 kilometres west and north-west of Schefferville, Quebec, and within the Ashuanipi Complex in the northeastern portion of the Superior Province, Quebec.

2. Provide a general overview and discussion of the activities of management.

During the month of **September 2020**, management's principal activities consisted of:

- Completing the acquisition and processing of ground geophysics at the Sixty Mile project;
  - hosting its annual general meeting; and
  - Attending to general management and administrative matters.
3. Describe and provide details of any new products or services developed or offered. For resource companies, provide details of new drilling, exploration or production programs and acquisitions of any new properties and attach any mineral or oil and gas or other reports required under Ontario securities law.

During the month of **September 2020**, the Issuer completed the acquisition and processing of ground geophysics at the Sixty Mile Project. Final drill targets have been selected and the project will commence within the next two weeks. The ground geophysical program combined magnetic and VLF acquisition and inversion to image the structural setting of the bedrock underlying coarse grained gold in gravels. The magnetics and VLF has imaged a stepover in a large NW striking structure which is interpreted as a potential dilatational zone in a broader fault system. Placer mining near the imaged structures has yielded coarse-grained gold in gravels directly overlying bedrock. The planned drilling program is for 10 – 20 RAB holes to a maximum of 100 m to identify the source of the coarse grained gold. Known disseminated gold mineralization in bedrock occurs on the project and has been uncovered through trenching, RAB and diamond drilling, but has not identified the source of the coarse-grained gold. The RAB drilling will include down-hole televueing surveying and XRF on rock chips to allow real-time targeting of mineralized structures.

### **COVID-19**

The outbreak of the corona virus pandemic has impacted the Issuer's plans and activities. The Issuer may face disruption to operations, supply chain delays, travel and trade restrictions and impact on economic activity in affected countries or regions can be expected and can be difficult to quantify. Such pandemics or diseases represent a serious threat to maintaining a skilled workforce industry and could be a major health-care challenge for the Issuer. There can be no assurance that the Issuer's personnel will not be impacted by these pandemic diseases and ultimately that the Issuer would see its workforce productivity reduced or incur increased medical costs/insurance premiums as a result of these health risks. In addition, the COVID-19 pandemic has created a dramatic slowdown in the global economy. The duration of the COVID-19 outbreak and the resultant travel restrictions, social distancing, Government response actions,

business closures and business disruptions, can all have an impact on the Issuer's operations and access to capital. There can be no assurance that the Issuer will not be impacted by adverse consequences that may be brought about by the COVID-19 pandemic on global financial markets may reduce resource prices, share prices and financial liquidity and thereby that may severely limit the financing capital available.
