1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.

PUDO is North America's first pick-up and drop-off service that is carrier-neutral ("Network"). Its large Network of convenient locations ensures reliable and secure delivery where you want it, when you want it. The Issuer is working closely with previously acquired customers to optimize procedures and expand the Network (referred to as PUDOpoints) to provide them services where and as they need it. Management of the Issuer continues to work on additional integrations with customers to grow parcel volumes while pursuing new customers and strategic partners.

During the COVID-19 pandemic, the Issuer's employees continued to work from home to manage the PUDO Network in support of its partners. To date, PUDO has been able to continue operations throughout the COVID-19 crisis. As a result of COVID-19 the Issuer did continue to experience a decrease in parcel volume for some services but it has been offset by additional services being utilized by our partners (i.e., customer drop off of parcel at PUDOpoints for consolidated courier pickups). The PUDO Network continues to show its value as most of the PUDOpoints, that form the PUDO Network, remain open during COVID-19 shut-downs of local services and/or operations implemented by local governments.

Working with existing partners and potential new partners, the Issuer continues to actively recruit and add new PUDOpoint locations to support the various requirements and requests.

During the month, the Issuer continues to partner with a large Canadian e-commerce retailer by providing PUDOpoint locations for an alternative direct shipping address. The e-commerce retailer has requested that the Issuer continue to expand their program into additional PUDOpoint locations across the PUDO Network. These locations are displayed as alternative delivery locations during the e-commerce retailer's customer checkout process. During the month, the Issuer continued to support large US e-commerce retailers with approximately 600 PUDOpoints in the US being displayed as alternative delivery locations during the

retailer's customer checkout process and the Issuer continues to actively expand this US Network.

2. Provide a general overview and discussion of the activities of management.

Management of the Issuer continued to work with the Issuer's existing partners to manage the evolving PUDO Network and services, while continually pursuing new strategic opportunities that would enhance and expand the PUDO Network and service offerings to create shareholder value.

During the month management continued to strategically invest in software development to enhance the Issuer's current software technology to manage API integration of PUDO's various service offerings with current and new partners.

On November 25, 2020, the Issuer announced an agreement with The Salvation Army Thrift Store, NRO to utilize PUDO's [GiveBackCanada.ca](https://www.givebackcanada.ca) program. This partnership will enable Canadians to ship their unwanted clothing and footwear to The Salvation Army Thrift Store from a PUDOpoint location at no cost by downloading a free shipping label and packing their donations in recycled cardboard boxes. By piggybacking on PUDO's existing returns logistics Network donations are consolidated at the community level and shipped from major Canadian cities, to regional warehouses for sorting and re-distribution to thrift stores.
