**About *BioPub***

[BioPub.co](https://www.biopub.co) is a biotech investment discussion website. Our goal is to be the secret weapon and unfair advantage of every subscriber. What you will find is an education including interviews others don't get and presence at meetings others don't bother to attend. We promote what we consider best in class companies and follow them closely to ensure that management is executing

their business plan faithfully and that development trials proceed as expected. We leverage the knowledge brought to the table by our professional members to see if the products being brought to market make sense financially in a world whose rules are changing daily.

### **About Algernon Pharmaceuticals Inc.**

Algernon is a drug re-purposing company that investigates safe, already approved drugs for new disease applications, moving them efficiently and safely into new human trials, developing new formulations and seeking new regulatory approvals in global markets. Algernon specifically investigates compounds that have never been approved in the U.S. or Europe to avoid off label prescription writing.

Algernon has filed new intellectual property rights globally for NP-120 (Ifenprodil) for the treatment of respiratory diseases and is working to develop a proprietary injectable and slow release formulation.
