Report on Business

1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.
The Company has continued to see solid demand for its Byrna® HD personal security device and continued to take new orders on its e-commerce site and from dealers and distributors. The Company has focused on increasing production, expanding its distribution center in Fort Wayne in its new larger space announced in July (press release issued and filed July 29, 2020), and setting up the new US manufacturing facility previously announced in several press releases and filings. We remained in a backorder situation with shipments of new orders delayed from 8- 12 weeks at various points during the month of August. Notwithstanding the delays in shipping most customers have not cancelled their orders and new orders are placed daily. The Company also continues to receive product orders from the law enforcement and corrections markets served by its legacy 40mm business.

2. Provide a general overview and discussion of the activities of management.

See response to item 1. Management's primary focus has been on facilitating the expansion of its production capacity, plans related to building out its financial infrastructure and controls, and expansion of the Byrna team including new hires at all levels and 3 new senior hires. See also response to item 10 and Press Release issued and filed September 4, 2020.

3. Describe and provide details of any new products or services developed or offered. For resource companies, provide details of new drilling, exploration or production programs and acquisitions of any new properties and attach any mineral or oil and gas or other reports required under Ontario securities law.

The Company continually reviews its supply relationships to maximize quality, control costs, and achieve supplier redundancy, among other things, to maximize shareholder value. No new contracts, joint ventures or licensing agreements were entered into in August. None of the Company's suppliers or licensees are related persons.

6. Describe the expiry or termination of any contracts or agreements between the Issuer, the Issuer's affiliates or third parties or cancellation of any financing arrangements that have been previously announced.

8. Describe the acquisition of new customers or loss of customers.

The Company regularly takes orders from new customers through its e-commerce sites and from dealers and distributors. A small percentage of e-commerce customers whose orders have been delayed due to unprecedented demand for our Byrna HD personal security devices have cancelled their orders.

9. Describe any new developments or effects on intangible products such as brand names, circulation lists, copyrights, franchises, licenses, patents, software, subscription lists and trademarks.

10. Report on any employee hirings, terminations or lay-offs with details of anticipated length of lay-offs.

The Company has continued to add to its workforce in South Africa and has begun to hire employees to staff its expanded distribution center and new manufacturing facility in Fort Wayne, Indiana. as discussed in previous monthly reports and press releases cited therein. The Company also hired a new Chief Supply Officer, a new Director of Human Resources and a new Chief Financial Officer in August. 14. Provide details of any securities issued and options or warrants granted.

The Company issued approximately 9 million shares of stock during August upon warrant and option exercises. Warrant and option exercises for cash, at exercise prices ranging from \$0.18 (US) to \$0.25 (US) raised approximately \$1.5 million (US). The Company agreed to one cashless exercise of 750,000 warrants with a strike price of \$0.155 (US), which resulted in the issuance of approximately 680,000 shares of the Company's stock.

15. Provide details of any changes in directors, officers or committee members.

The Board appointed a new director, Chris Reed, effective September 1, 2020, and a new CFO, David North, effective August 31, 2020. Two additional senior executives, a Chief Supply Officer (David Schultz) and a Director of Human Resources (Sandra Driscoll) joined the Company in August. See press release issued and filed September 4, 2020.

16. Discuss any trends which are likely to impact the Issuer including trends in the Issuer's market(s) or political/regulatory trends.

As described over the last several months the global coronavirus pandemic and civil unrest in the United States as well as growing awareness of the Byrna HD resulted in an unprecedented number of orders for the Company's Byrna HD and an unprecedented delay in shipments. The Company cannot predict whether or to what extent that demand will increase after the current crisis has abated. Further, the Company does not have a history of filling such a large number of orders and there is no guaranty that a substantial number of these orders won't be cancelled before they can be filled. While the Company has taken steps to increase production and fill these orders as quickly as possible the ongoing pandemic may cause additional disruptions to the supply chain and the Company's manufacturing operations. Such disruptions present risks of significant but unknown size to the Company's ability to convert orders to sales. Additionally, the Company's inability to convert orders to sales quickly limits the cash available for continuing operations to fill orders and may necessitate additional bridge financing. There is no guaranty that such financing will be available at all or on favorable terms. Inability to use cash received from orders or obtain additional financing at all or on favorable terms could interfere with the Company's ability to continue operations.
