## Bam Bam Engages Alan Morris for Updated NI 43-101 for Majuba Hill Project

**VANCOUVER, BC — October 15, 2020 — Bam Bam Resources Corp.** (CSE:BBR, OTC:NPEZF, FSE:4NPB) ("**Bam Bam**" or the "**Company**") is pleased to announce that Alan Morris, CPG, has been engaged to write a new National Instrument 43-101 Technical Report (the "**Technical Report**") for its flagship Majuba Hill Property (the "**Property**"), a copper, silver, gold porphyry project located in Pershing County, Nevada.

Mr. Morris was the author of the original Technical Report written in 2017, and he has over 39 years of geologic mineral exploration experience in the Western United States, Alaska, and Yukon, Canada. He is particularly knowledgeable about early stage generative projects and mid-stage drill projects for precious and base metal projects. Mr. Morris is a Certified Professional Geologist with the American Institute of Professional Geologists, registry number 10550, a Licensed Geologist in the State of Utah, USA (5411614-2250), and a Registered Professional Geologist in the State of Alaska, USA (555). He graduated with a Bachelor of Science degree in Geology from Fort Lewis College, Durango, Colorado in 1976 and a Master of Science Degree in Geographical Information Science from Manchester Metropolitan University in 2003.

Mr. David Greenway commented: *"I am glad that we were able to get some of Alan's time. His depth of experience throughout Nevada and the North American Cordillera, plus his established knowledge of the NI 43-101 processes will be a good contribution to the technical team working on Majuba."*

Mr. Morris recently visited the site during the reverse-circulation drill program and has also reviewed the core from the Phase 1 drill program. He will be the primary Qualified Person authoring the report. He will also review and oversee the incorporation of the resource and geologic modeling into the document.
