On November 11, 2019, the Company completed a consolidation of the authorized and issued common shares of the Company (the "Common Shares") on the basis

of a one (1) post-consolidated Common Share for each twenty-five (25) pre-consolidation Common Shares (the "Consolidation"). As a result, the Company has been reduced to 4,856,589 issued and outstanding common shares. No fractional shares were issued in connection with the consolidation. Outstanding stock options and warrants were similarly adjusted by the consolidation ratio.

The Company's trading symbol has been changed to NETC.X

On April 17, 2020 - Netcoins Holdings Inc. (the "Company" or "Netcoins Holdings") (CSE: NETC) announces that it has entered into a non-binding Letter of Intent ("LOI") for the purposes of an investment into Black Swan Graphene Inc. ("Black Swan"). Black Swan is an Ontario corporation that is engaged in the research and development of graphene for industrial applications in the international bulk graphene market.

The LOI further outlines an intention to license key global patents owned by Thomas Swan & Co. Ltd ("Thomas Swan") of Durham, United Kingdom in the area of mechanical liquid phase exfoliation of graphite into graphenes, where Thomas Swan is a recognized global leader, exclusive license holder and innovator of the technology. Thomas Swan will also provide research and engineering services to Black Swan in the initial transaction period pursuant to a services agreement that will be in force on closing.

In the bulk graphene market where graphenes are used as additives in composites, tires and building materials, conservative estimates (Fullerex 2018, via the Graphene Council) project the potential annual market opportunity to be 8 to 12 million tons. The intellectual property together with the services to be provided by Thomas Swan will situate Black Swan at the forefront of graphene production.
