

CleanGo Innovations Signs LOI to purchase Dakota Supplies Inc. Maker of the MOPPITT Kit

Vancouver, B.C. - TheNewswire - September 29, 2021 - CleanGo Innovations Inc. (CNSX: CGII.CN) (FSE: APO2) (OTC: SOFSF) (“CleanGo”) or (the “Company”) a company focused on sustainable, green cleaning products is pleased to announce it has a Letter Of Intent (LOI) to purchase 100% of Dakota Supplies Inc. which will allow it to expand its offering of products to the commercial aviation, logistics, and home market.

About Dakota Supplies Inc.

Dakota Supplies Inc. of Alberta, Canada, specialize in identifying product gaps and designing innovative solutions for a variety of industries, with a focus on aviation. The Dakota team has designed and launched the MOPPITT™ Kit, which includes an extendable pole, hand unit and cleaning pods. The MOPPITT is currently used by Air Canada in their entire global fleet. The MOPPITT™ is an all-in-one hands-free cleaning unit that works in conjunction with proprietary cleaning pods.

Every type of aircraft, train, bus, or passenger coach has floors and lavatories but limited space to store cleaning supplies and even more limited time to clean. The MOPPITT® family of products provides a unique all-in-one ‘touchless’ system that is safe, convenient, quick, easy, and effective to use, all in a lightweight compact design for easy storage.

Management Commentary

“By purchasing Dakota Supplies, CleanGo Innovations will be able to take a shortcut into the global aviation and transportation sanitation industry. We intend to use our proprietary patented, CleanGo GreenGo disinfectant and cleaner to fill the MOPPITT cleaning pods and start keeping passengers both safe from germs, viruses and harmful chemicals” Explained Anthony Sarvucci, CEO of CleanGo Innovations. “Developed and inspired through the power of emulsification, our non-toxic and environmentally friendly CleanGo GreenGo products are the superior choice over toxic and harmful

cleaners. We hope to make the transportation sector, facilities, and home environments, a little greener and in turn keep staff and families safe from harmful cleaner chemicals. “
