

FORM 7

MONTHLY PROGRESS REPORT

Name of Listed Issuer: MEGAWATT LITHIUM AND BATTERY METALS CORP.(the "Issuer").

Trading Symbol: MEGA

Number of Outstanding Listed Securities: 64,295,161

Date: July 5, 2021

This Monthly Progress Report must be posted before the opening of trading on the fifth trading day of each month. This report is not intended to replace the Issuer's obligation to separately report material information forthwith upon the information becoming known to management or to post the forms required by Exchange Policies. If material information became known and was reported during the preceding month to which this report relates, this report should refer to the material information, the news release date and the posting date on the Exchange website.

This report is intended to keep investors and the market informed of the Issuer's ongoing business and management activities that occurred during the preceding month. Do not discuss goals or future plans unless they have crystallized to the point that they are "material information" as defined in the Policies. The discussion in this report must be factual, balanced and non-promotional.

General Instructions

- (a) Prepare this Monthly Progress Report using the format set out below. The sequence of questions must not be altered nor should questions be omitted or left unanswered. The answers to the items must be in narrative form. State when the answer to any item is negative or not applicable to the Issuer. The title to each item must precede the answer.
- (b) The term "Issuer" includes the Issuer and any of its subsidiaries.
- (c) Terms used and not defined in this form are defined or interpreted in Policy 1 – Interpretation and General Provisions.

Report on Business

1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.

The Issuer announced (via press release dated June 7, 2021) that SJ Geophysics of Delta, BC has mobilized to conduct a 3D Induced Polarity Survey (IP) at the Company's Cobalt Hill Project. Cobalt Hill consists of eight mineral claims covering an area of approximately 1,727.43 hectares located in the Trail Creek Mining Division near Castlegar

in the Province of British Columbia. The survey consists of 22.8 line kilometres and is intended to test a large gold soil anomaly. The scope of the survey was upgraded to also test a copper-cobalt occurrence when this type of mineralization was sampled on the property.

The Issuer announced (via press release dated June 17, 2021) that it is moving forward with a field program at the recently acquired Route 381 Lithium Project comprised of 40 mineral claims located in James Bay Territory, north of Matagami in the Province of Quebec, and covering 2,126 hectares. The project benefits from excellent logistics with adjacent Hydro power available and road access. Grab samples of up to 2.77% Li₂O are reported. The work will consist of a prospecting, mapping and channel sampling program focused on the previously identified spodumene bearing pegmatites. The program will also involve regional exploration to identify additional lithium bearing pegmatites.

The Issuer announced (via press release dated June 24, 2021) that geological consultancy, Elmore Limited of Perth Australia has been appointed to take the lead in developing the Artic Fox and Isbjorn properties in Northern Territory, Australia. Elmore expects the campaign to take 8-10 days in total and use a team of four made up of geologists and technicians. The team will undertake geological mapping and comprehensive sampling across prospective areas within both properties. Further, the team would use helicopter and follow up ground support to ensure the campaigns are completed most efficiently.

Security	Number Issued	Details of Issuance	Use of Proceeds ⁽¹⁾

(1) State aggregate proceeds and intended allocation of proceeds.

15. Provide details of any loans to or by Related Persons.

N/A

16. Provide details of any changes in directors, officers or committee members.

N/A

17. Discuss any trends which are likely to impact the Issuer including trends in the Issuer’s market(s) or political/regulatory trends.

The Issuer believes that the COVID-19 Pandemic will likely have only a minimal impact on the Issuer’s activities, most notably in curtailment of travel

and access to mineral projects due to travel and social distancing restrictions. There is no material disruption to the Issuer's operations.

The Issuer is a public junior mining issuer involved in exploration activities and is subject to the market fluctuations and volatility experienced by junior exploration and development issuers in British Columbia and world-wide in recent years.

Resource exploration and development is a speculative business, characterized by a number of significant risks. The long-term profitability of the Issuer's operations will in part be directly related to the costs and success of its exploration programs.

Metal prices have fluctuated widely, particularly in recent years. Consequently, the economic viability of any of the Issuer's exploration projects cannot be accurately predicted and may be adversely affected by fluctuations in mineral prices.

Certificate Of Compliance

The undersigned hereby certifies that:

1. The undersigned is a director and/or senior officer of the Issuer and has been duly authorized by a resolution of the board of directors of the Issuer to sign this Certificate of Compliance.
2. As of the date hereof there were no material information concerning the Issuer which has not been publicly disclosed.
3. The undersigned hereby certifies to the Exchange that the Issuer is in compliance with the requirements of applicable securities legislation (as such term is defined in National Instrument 14-101) and all Exchange Requirements (as defined in CNSX Policy 1).
4. All of the information in this Form 7 Monthly Progress Report is true.
