

FORM 7

MONTHLY PROGRESS REPORT

Name of Listed Issuer: Global Cannabis Applications Corp. (the "Issuer" or "GCAC")

Trading Symbol: APP

Number of Outstanding Listed Securities: 179,145,424 (as at October 31, 2021)

Date: November 4, 2021

This Monthly Progress Report must be posted before the opening of trading on the fifth trading day of each month. This report is not intended to replace the Issuer's obligation to separately report material information forthwith upon the information becoming known to management or to post the forms required by Exchange Policies. If material information became known and was reported during the preceding month to which this report relates, this report should refer to the material information, the news release date and the posting date on the Exchange website.

This report is intended to keep investors and the market informed of the Issuer's ongoing business and management activities that occurred during the preceding month. Do not discuss goals or future plans unless they have crystallized to the point that they are "material information" as defined in the Policies. The discussion in this report must be factual, balanced and non-promotional.

General Instructions

- (a) Prepare this Monthly Progress Report using the format set out below. The sequence of questions must not be altered nor should questions be omitted or left unanswered. The answers to the items must be in narrative form. State when the answer to any item is negative or not applicable to the Issuer. The title to each item must precede the answer.
- (b) The term "Issuer" includes the Issuer and any of its subsidiaries.
- (c) Terms used and not defined in this form are defined or interpreted in Policy 1 – Interpretation and General Provisions.

Report on Business

- 1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.**

The Issuer is a global leader in designing, developing, SaaS licensing and acquiring innovative data technologies for the medical cannabis industry. Its Citizen Green and Efixii platforms are the world's first end-to-end - from patient to regulator - medical cannabis data solutions. They use six core technologies: mobile applications, artificial intelligence, RegTech, smart databases, Ethereum blockchain and GCAC smart rewards. These technologies transparently disclose cannabis chain-of-custody events, thereby enabling patients to provide crowd-sourced medical cannabis efficacy data. Driven by digital and cannabis industry experts, the Issuer is focused on generating revenue from SaaS licensing its technology and acquiring high quality cannabis datasets that improve patient outcomes and to become the world's largest cannabis efficacy data provider.

During the month of October 2021, the Issuer actively continued general and corporate operations.

Global Outbreak of COVID-19 Disclosure: The actual and threatened spread of the virus globally has had a material adverse effect on the regional economies in which the Issuer operates and could

continue to result in negative impacts on the stock market, including trading prices of the Issuer's shares and the ability to raise capital, and could impact the Issuer's operations.

2. Provide a general overview and discussion of the activities of management.

During the month of October 2021, management continued to support and control the Issuer's business activities and develop the Issuer's business.

On October 14, 2021, the Issuer announced by way of news release its exhibit and keynote presentation at MJBizCon in Las Vegas, from October 20-22, 2021.

MJBizCon, an award-winning show, is central to the cannabis industries' business year. Tens of thousands of business leaders, major private investors, wholesale cultivators, and other professionals attend. The Issuer presented its Citizen Green Efixii and Prescriptii Patient-Care solutions to over 60,000 conference attendees.

CEO Brad Moore delivered a keynote address on the MJBizCon LIVE Stage, October 21, 2021, at 11:00 a.m. "Beyond Seed to Sale: Using Technology to Meet Compliance and Grow Sales" highlighted the Issuer's SaaS solutions for the medical cannabis industry, discussing a better way to build consumer trust, reach sales goals, and maintain strict compliance.

With 38^[1] states with legal medical cannabis regimes, the US market is primed for the Issuer's data-driven solutions. The largest trade show in the industry allows the Issuer to meet industry leaders face-to-face. Company executives held meetings with cultivators and industry leaders.

Efixii is licensed to cultivators in a SaaS model and is a free-to-use app for cannabis consumers. Efixii's cannabis efficacy data is the intellectual property ("IP") of the Issuer. This IP creates an inherent difficulty in replicating or competing with the Issuer's cannabis datasets. The Issuer defined their protocols in a provisional US patent application, 'System of Process and Tracking Cannabis Products and Associated Method Using Blockchain' filed with the USPTO on December 17, 2020.

On October 21, 2021, the Issuer announced by way of news release that it has signed a letter of intent ("LOI") to form a sales, marketing, and blockchain lending partnership with EMTRI Group ("EMTRI").

EMTRI provides branding and retail marketing services to regulated cannabis cultivators in the epicenter of cannabis farming in the California, Mendocino, Humboldt, and Trinity counties, known as cannabis's Emerald Triangle. More than 20,000 cultivators produce over 750 million grams of cannabis each year in the Emerald Triangle.

The Issuers's token technology is licensed by EMTRI to expand its cultivator services by establishing a cannabis bank (the "Bank") using the Issuer's Ethereum layer-2 blockchain. Cultivators stake their cannabis to the Bank to be sold to licensed distributors with supported by the marketing and branding services provided by EMTRI. The Bank pays cultivators deposit-interest in EMTRI-tokens while they wait for regulated distributors to sell their products.

Under the agreement, the Issuer will provide software development and implementation services to EMTRI to customize the Efixii technology for a one-time fee of US\$500,000, to be earned over a three-month period commencing December 2021, plus a perpetual revenue share of EMTRI's QR-code sales to cultivators. Efixii technology will be expanded to reward cultivators with

EMTRI-tokens for cannabis lifecycle steps captured using the Efixii app. Efixii will also be configured so EMTRI rewards its cannabis consumers with EMTRI-tokens for their efficacy feedback.

Cannabis data captured using Efixii is the intellectual property (“IP”) of the Issuer. This IP creates an inherent difficulty in replicating or competing with the Issuer’s cannabis datasets. The Issuer defined their protocols in a provisional US patent application, ‘System of Process and Tracking Cannabis Products and Associated Method Using Blockchain’ filed with the USPTO on December 17, 2020.

On October 26, 2021, the Issuer announced by way of news release the live release of its web-based [Prescriptii Patient Experience \(PPE\)](#). The free-to-use website ^[1] empowers each cannabis consumer with data to help make better choices for their personal medical needs.

As part of its application process for a Health Canada Medical Cannabis Sales License ^[2], PPE is a Reddit-style web portal for medical cannabis consumers powered by an AI engine built by [Curve Tech](#) ^[3], creators of machine learning environments and prediction engines used by global e-commerce leaders like Shopify. The advanced algorithm analyzes over 600,000 verified data points from studies about cannabis, questionnaires, user reviews, and rankings of widely available strains for more than 80 medical conditions. Machine learning establishes links between the conditions and strains to create a data-driven picture of medical cannabis.

The proprietary heredity tree maps the origin and ancestry of over 9,000 strains and their chemical compound levels, including THC and CBD levels, Indica and Sativa ratios, and additional active compounds, such as CBN, CBC, CBG, and THCV. Two search modes make queries easy.

PPE helps find strains rated best for certain conditions using PAIN to STRAIN. It analyzes a strain to see which conditions it works best for with STRAIN to PAIN and finds similar strains in the STRAIN to STRAIN area.

PPE offers basic search results, and consumers can create an account for more comprehensive results, recommendations, and preferred strains.

Initially available in English, PPE will be accessible by consumers in Canada and the US. Other languages and regional launch plans are forthcoming.

In addition, on October 29, 2021, management filed the Issuer’s audited consolidated annual financial statements and related management discussion and analysis for the year ended June 30, 2021, (together, the “**Annual Filings**”).

The above noted news releases and the Annual Filings can be viewed under the Issuer’s profile on SEDAR (www.sedar.com) and on the Issuer’s Disclosure Page on the Canadian Securities Exchange’s website.

- 3. Describe and provide details of any new products or services developed or offered. For resource companies, provide details of new drilling, exploration or production programs and acquisitions of any new properties and attach any mineral or oil and gas or other reports required under Ontario securities law.**

The Issuer released PPE, a free-to-use website that empowers cannabis consumers with data to help

make better choices for their personal medical needs.

See Item #2 for further details.

- 4. Describe and provide details of any products or services that were discontinued. For resource companies, provide details of any drilling, exploration or production programs that have been amended or abandoned.**

None to report during the month of October 2021.

- 5. Describe any new business relationships entered into between the Issuer, the Issuer's affiliates or third parties including contracts to supply products or services, joint venture agreements and licensing agreements, etc. State whether the relationship is with a Related Person of the Issuer and provide details of the relationship.**

The Issuer has signed an LOI with EMTRI to form a sales, marketing, and blockchain lending partnership. Under the agreement, the Issuer will provide software development and implementation services to EMTRI to customize the Efixxi technology. The relationship between the Issuer and EMTRI is considered to be an arm's length relationship and EMTRI is not considered to be Related Party to the Issuer.

See Item #2 for further details.

- 6. Describe the expiry or termination of any contracts or agreements between the Issuer, the Issuer's affiliates or third parties or cancellation of any financing arrangements that have been previously announced.**

None to report during the month of October 2021.

- 7. Describe any acquisitions by the Issuer or dispositions of the Issuer's assets that occurred during the preceding month. Provide details of the nature of the assets acquired or disposed of and provide details of the consideration paid or payable together with a schedule of payments if applicable, and of any valuation. State how the consideration was determined and whether the acquisition was from or the disposition was to a Related Person of the Issuer and provide details of the relationship.**

None to report during the month of October 2021.

- 8. Describe the acquisition of new customers or loss of customers.**

None to report during the month of October 2021.

- 9. Describe any new developments or effects on intangible products such as brand names, circulation lists, copyrights, franchises, licenses, patents, software, subscription lists and trademarks.**

None to report during the month of October 2021.

- 10. Report on any employee hirings, terminations or lay-offs with details of anticipated length of lay-offs.**

None to report during the month of October 2021.

11. Report on any labour disputes and resolutions of those disputes if applicable.

None to report during the month of October 2021.

12. Describe and provide details of legal proceedings to which the Issuer became a party, including the name of the court or agency, the date instituted, the principal parties to the proceedings, the nature of the claim, the amount claimed, if any, if the proceedings are being contested, and the present status of the proceedings.

None to report during the month of October 2021.

13. Provide details of any indebtedness incurred or repaid by the Issuer together with the terms of such indebtedness.

None to report during the month of October 2021.

14. Provide details of any securities issued and options or warrants granted.

Security	Number Issued	Details of Issuance	Use of Proceeds
None to report during the month of October 2021.			

15. Provide details of any loans to or by Related Persons.

None to report during the month of October 2021.

16. Provide details of any changes in directors, officers, or committee members.

None to report during the month of October 2021.

17. Discuss any trends which are likely to impact the Issuer including trends in the Issuer's market(s) or political/regulatory trends.

The trends and risks which are likely to impact the Issuer are detailed in the Issuer's Form 2A - Listing Statement, dated September 16, 2014, under the heading "Risk Factors", and the Issuer's Management Discussion and Analysis dated October 29, 2021 (the "MD&A"), under the heading "Risk Factors". The Listing Statement was posted on the CSE website on September 17, 2014. In addition, the Listing Statement and the MD&A can be viewed under the Issuer's profile on SEDAR (www.sedar.com).
