

FORM 7

MONTHLY PROGRESS REPORT

Name of Listed Issuer: **CASCADA SILVER CORP.** (the "Issuer").

Trading Symbol: **CSS**

Number of Outstanding Listed Securities: **64,660,100 Common Shares**

Date: **September 1, 2021**

This Monthly Progress Report must be posted before the opening of trading on the fifth trading day of each month. This report is not intended to replace the Issuer's obligation to separately report material information forthwith upon the information becoming known to management or to post the forms required by Exchange Policies. If material information became known and was reported during the preceding month to which this report relates, this report should refer to the material information, the news release date and the posting date on the Exchange website.

This report is intended to keep investors and the market informed of the Issuer's ongoing business and management activities that occurred during the preceding month. Do not discuss goals or future plans unless they have crystallized to the point that they are "material information" as defined in the Policies. The discussion in this report must be factual, balanced and non-promotional.

General Instructions

- (a) Prepare this Monthly Progress Report using the format set out below. The sequence of questions must not be altered nor should questions be omitted or left unanswered. The answers to the items must be in narrative form. State when the answer to any item is negative or not applicable to the Issuer. The title to each item must precede the answer.
- (b) The term "Issuer" includes the Issuer and any of its subsidiaries.
- (c) Terms used and not defined in this form are defined or interpreted in Policy 1 – Interpretation and General Provisions.

Report on Business

1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.

The issuer is a mineral exploration company focused on silver and gold exploration in Latin America with three properties under option in Chile. The Issuer's team of exploration professionals are focused on the discovery of mineral deposits that can be progressed into economically viable development projects.

2. Provide a general overview and discussion of the activities of management.

At the Agua Amarga Project, the previously announced reverse circulation drilling program was completed with four drill holes targeting the down dip extensions of the silver-bearing veins which had been mined during the 1800's. However, as announced on July 21, 2021, the reverse circulation drilling program returned

elevated zinc assay results including 3.4% zinc over 2 metres in drill hole RCAA-03 but returned no significant silver results. Drill hole RCAA-03 cut the targeted mineralized structure at a depth of 120 metres; however the system had transitioned from the near surface, historically mined silver mineralization to base metal mineralization (zinc) at depth.

At the Marilyn Project, the underground exploration adit was completed with the adit driven along 40 metres of the Marilyn vein structure exposing a 0.90 to 1.50 metre wide zone of oxidized quartz carbonate veining. On July 15, 2021 the Issuer announced that no significant assay results were obtained and that these results likely define the lower depositional limit of the Marilyn gold silver copper vein mineralization between the level of the adit and the 2950 metre level.

3. Describe and provide details of any new products or services developed or offered. For resource companies, provide details of new drilling, exploration or production programs and acquisitions of any new properties and attach any mineral or oil and gas or other reports required under Ontario securities law.
