

CleanGo Innovations Inc. Earns Coveted Green Seal Certification.

Portfolio Company CleanGo GreenGo's Three Flagship Products Attain GS-8 Edition 5.6 Standard Certification, proving the products reduce waste, protect human & environmental health and are effective to strict Green Seal Standards

Vancouver, B.C. – January 06, 2021: CleanGo Innovations Inc. (CSE: CGII) (OTC PINK: SOFSF) (FRA: APO2) ("CleanGo") or (the "Company") announces its wholly owned subsidiary CleanGo GreenGo has received Green Seal Certification of its compliance with industry leading GS-8 standards for its three-flagship cleaning and disinfecting products: CleanGo GreenGo Total Purpose, Fabric and Carpet & Industrial cleaners.

CleanGo GreenGo's products met Green Seal's stringent standard for household use cleaning products. Green Seal requires products to be made from renewable material and sets strict sustainability criteria covering everything from raw materials to production to packaging. The cleaners were screened for carcinogens, reproductive toxins, mutagens, phthalates, parabens, and any other toxic ingredients that don't belong near adults, children or pets. Only the safest, most responsible, and most effective products achievable today are able to meet this standard.

"In a marketplace crowded with toxic and dangerous cleaning products and products making unsubstantiated green claims, the Green Seal mark helps consumers make healthier, greener choices with confidence," said Anthony Sarvucci, CEO of CleanGo Innovations. "By earning independent certification to Green Seal's rigorous standard, CleanGo GreenGo has proven our flagship products are among the safest, greenest and most effective cleaning products available today.

This achievement will help CleanGo GreenGo products differentiate themselves from products simply labeled 'green' or 'non-toxic' and solidifies that CleanGo GreenGo products strive to be the best. The company has always believed in moving consumers away from toxic and caustic cleaning products that go down our drains and into the waterways and adversely affect marine life. Having our flagship products able to display the Green Seal logo is a major milestone getting us closer to revolutionizing home cleaning safely and effectively."

About Green Seal

Green Seal® is a global nonprofit organization with a mission to transform the economy for a healthier, greener world. Since 1989, Green Seal has applied rigorous standards for health, environmental sustainability and product performance to its certification programs to empower better purchasing decisions. Green Seal has certified thousands of products, services and spaces from hundreds of leading companies including 3M, Ecolab, Georgia Pacific, Hilton, Westin, Marriott and Staples, and is specified by countless schools, government agencies, businesses and institutions. Today, the Green Seal certification mark is a universal symbol that a product or service meets the highest benchmark of health and environmental leadership.
