

FORM 7

MONTHLY PROGRESS REPORT

Name of Listed Issuer: Global Cannabis Applications Corp. (the "Issuer" or "GCAC")

Trading Symbol: APP

Number of Outstanding Listed Securities: 180,152,483 (as at December 31, 2021)

Date: January 7, 2022

This Monthly Progress Report must be posted before the opening of trading on the fifth trading day of each month. This report is not intended to replace the Issuer's obligation to separately report material information forthwith upon the information becoming known to management or to post the forms required by Exchange Policies. If material information became known and was reported during the preceding month to which this report relates, this report should refer to the material information, the news release date and the posting date on the Exchange website.

This report is intended to keep investors and the market informed of the Issuer's ongoing business and management activities that occurred during the preceding month. Do not discuss goals or future plans unless they have crystallized to the point that they are "material information" as defined in the Policies. The discussion in this report must be factual, balanced and non-promotional.

General Instructions

- (a) Prepare this Monthly Progress Report using the format set out below. The sequence of questions must not be altered nor should questions be omitted or left unanswered. The answers to the items must be in narrative form. State when the answer to any item is negative or not applicable to the Issuer. The title to each item must precede the answer.
- (b) The term "Issuer" includes the Issuer and any of its subsidiaries.
- (c) Terms used and not defined in this form are defined or interpreted in Policy 1 – Interpretation and General Provisions.

Report on Business

- 1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.**

The Issuer is a global leader in designing, developing, SaaS licensing and acquiring innovative data technologies for the medical cannabis industry. Its Citizen Green and Efixii platforms are the world's first end-to-end - from patient to regulator - medical cannabis data solutions. They use six core technologies: mobile applications, artificial intelligence, RegTech, smart databases, Ethereum blockchain and GCAC smart rewards. These technologies transparently disclose cannabis chain-of-custody events, thereby enabling patients to provide crowd-sourced medical cannabis efficacy data. Driven by digital and cannabis industry experts, the Issuer is focused on generating revenue from SaaS licensing its technology and acquiring high quality cannabis datasets that improve patient outcomes and to become the world's largest cannabis efficacy data provider.

During the month of December 2021, the Issuer actively continued general and corporate operations.

Global Outbreak of COVID-19 Disclosure: The actual and threatened spread of the virus globally has had a material adverse effect on the regional economies in which the Issuer operates and could continue to result in negative impacts on the stock market, including trading prices of the Issuer's shares and the ability to raise capital, and could impact the Issuer's operations.

2. Provide a general overview and discussion of the activities of management.

During the month of December 2021, management continued to support and control the Issuer's business activities and develop the Issuer's business.

On December 2, 2021, the Issuer announced by way of news release announced is proud to be recognized as one of the 44 Top Market Research Startups and Companies in British Columbia. [1]

Best Startup Canada recognized GCAC's innovative data technologies specifically designed for the medical cannabis industry for exceptional performance based on innovation, growth, management, or societal impact. The Issuer, previously acknowledged in the 100 Top Market Research Startups and Companies in Canada [2] and 27 Top Market Research Startups and Companies in Vancouver (2021) [3] lists, is gaining momentum.

CEO Brad Moore says, "our team is working tirelessly to get our technology in the hands of cultivators and industry professionals and to share our story with medical cannabis consumers who benefit from our innovative 'one gram grown, one gram consumed' efficacy measurement."

GCAC's suite of software technologies enables cultivators to reduce costs and replicate results in full legal compliance. All industry stakeholders, including consumers, can view each data point on the blockchain by scanning a secure QR code. The Efixii [4] mobile app and Prescriptii Patient Experience [5] website for medical cannabis consumers are free-to-use services enabling everyone to see the product story and understand what they are putting in their bodies.

Moore has been on a mission to showcase the technology at as many industry events as possible. He has driven awareness in more than 7 interviews, 4 podcasts, and 7 presentations at industry events. Visit the Issuer's [YouTube](#) channel for a complete list. Most recently, his headline speech [6] at the CannabiSalud "Business Investment Conference," Cancun, Mexico, Nov 18-20, and a pre-conference webinar [7] on Nov. 16 highlighted GCAC products to the world's newest and largest legal cannabis market.

Brad delivered a keynote address at MJBizCon [8], Las Vegas, USA, Oct. 2021 and signed a \$500,000 Letter of Intent with EMTRI, representing more than 20,000 cultivators producing over 750 million grams of cannabis each year in California's Emerald Triangle.

GCAC was spotlighted on "Advancements TV," [9] hosted by Ted Danson in September. Earlier in the year, Brad was a headline panelist at Prohibition Partners LIVE [10] in Germany.

The Issuer is on a roll, announcing plans to operate as a non-possession medical cannabis retailer that connects buyers to cultivators upon approval from Health Canada using a retail dropship model [11]; announcing DEFI funding for Canadian cultivators [12] that license Efixii cannabis blockchain software; and, joining [13] the Canadian Chamber of Commerce's National Cannabis Working Group and the International Cannabis Council. The Issuer was recently up-listed to the OTCQB exchange, making shares more broadly available to US investors. [14]

Efixii is licensed to cultivators in a SaaS model and is a free-to-use app for cannabis consumers. All cannabis sold through the Portal generates a new sales-commission revenue stream for GCAC.

Efixii's cannabis data is the intellectual property ("IP") of GCAC. This IP creates an inherent difficulty in replicating or competing with GCAC's cannabis datasets. GCAC defined their protocols in a provisional US patent application, 'System of Process and Tracking Cannabis Products and Associated Method Using Blockchain' filed with the USPTO on Dec. 17, 2020.

On December 10, 2021, the Issuer announced by way of news release it obtained official Acknowledgement Receipt from the United States Patent and Trademark Office (USPTO) in filing US Utility Patent Applications.

GCAC filed the "System of Processing and Tracking Cannabis Products and Associated Method Using Block Chain," Serial Number 63/126,555, filed the original application on December 17, 2020. Due to delays caused by the Covid-19 pandemic, the Patent was officially published on December 2, 2021. A second application filed November 24, 2021, for "Tracking System for Cultivated Products and Associated Methods," Serial Number 17/457,385 was acknowledged simultaneously.

The applications include "World Assignment" applying to the European Patent Office (EPO), Japan Patent Office (JPO), Korean Intellectual Property Office (KIPO), the State Intellectual Property Office of the People's Republic of China (SIPO), the World Intellectual Property Organization (WIPO), and other intellectual property organizations participating with USPTO in bilateral or multilateral agreements.

GCAC CEO, Brad Moore stated, "by registering these patents globally, GCAC is cementing its clear lead in the market. We have seen this year, and specifically recently at MJBizCon and the CannabiSalud Summit, that cultivators and partners want and need what we have built. Our competitive now is not just in IP, investment and time but is legally protected."

The patented systems are central to GCAC's Efixii software, connecting superior data analytics, AI, and deep learning algorithms to an Ethereum-powered blockchain. The SeedtoSeed™ feedback loop seamlessly connects the cultivator to the consumer and back, benefiting everyone in the cannabis ecosystem with enriched transparent data analysis. Scanning an Efixii QR code yields complete product lifecycle details, including reviews.

The 'one gram grown, one gram consumed' model is the only market offering that measures efficacy, providing the most advanced product intelligence available.

The above noted news releases can be viewed under the Issuer's profile on SEDAR (www.sedar.com) and on the Issuer's Disclosure Page on the Canadian Securities Exchange's website.

- 3. Describe and provide details of any new products or services developed or offered. For resource companies, provide details of new drilling, exploration or production programs and acquisitions of any new properties and attach any mineral or oil and gas or other reports required under Ontario securities law.**

None to report during the month of December 2021.

- 4. Describe and provide details of any products or services that were discontinued. For resource companies, provide details of any drilling, exploration or production programs that have been amended or abandoned.**

None to report during the month of December 2021.

- 5. Describe any new business relationships entered into between the Issuer, the Issuer's affiliates or third parties including contracts to supply products or services, joint venture agreements and licensing agreements, etc. State whether the relationship is with a Related Person of the Issuer and provide details of the relationship.**

None to report during the month of December 2021.

- 6. Describe the expiry or termination of any contracts or agreements between the Issuer, the Issuer's affiliates or third parties or cancellation of any financing arrangements that have been previously announced.**

None to report during the month of December 2021.

- 7. Describe any acquisitions by the Issuer or dispositions of the Issuer's assets that occurred during the preceding month. Provide details of the nature of the assets acquired or disposed of and provide details of the consideration paid or payable together with a schedule of payments if applicable, and of any valuation. State how the consideration was determined and whether the acquisition was from or the disposition was to a Related Person of the Issuer and provide details of the relationship.**

None to report during the month of December 2021.

- 8. Describe the acquisition of new customers or loss of customers.**

None to report during the month of December 2021.

9. Describe any new developments or effects on intangible products such as brand names, circulation lists, copyrights, franchises, licenses, patents, software, subscription lists and trademarks.

During the month of December 2021, the Issuer obtained official Acknowledgement Receipt from the United States Patent and Trademark Office (USPTO) in filing US Utility Patent Applications.

The Issuer filed the “System of Processing and Tracking Cannabis Products and Associated Method Using Block Chain,” Serial Number 63/126,555, filed the original application on December 17, 2020. Due to delays caused by the Covid-19 pandemic, the Patent was officially published on December 2, 2021. A second application filed November 24, 2021, for “Tracking System for Cultivated Products and Associated Methods,” Serial Number 17/457,385 was acknowledged simultaneously.

See item #2 for further details.

10. Report on any employee hirings, terminations or lay-offs with details of anticipated length of lay-offs.

None to report during the month of December 2021.

11. Report on any labour disputes and resolutions of those disputes if applicable.

None to report during the month of December 2021.

12. Describe and provide details of legal proceedings to which the Issuer became a party, including the name of the court or agency, the date instituted, the principal parties to the proceedings, the nature of the claim, the amount claimed, if any, if the proceedings are being contested, and the present status of the proceedings.
