Name of CNSX Issuer: **MLK GOLD LTD.** (the “Issuer”).

Trading Symbol: **“MLK”**

Number of Outstanding Listed Securities: **40,091,230**

Date: **October 20, 2022**

This Monthly Progress Report must be posted before the opening of trading on the fifth trading day of each month. This report is not intended to replace the Issuer’s obligation to separately report material information forthwith upon the information becoming known to management or to post the forms required by the CNSX Policies. If material information became known and was reported during the preceding month to which this report relates, this report should refer to the material information, the news release date and the posting date on the CNSX.ca website.

This report is intended to keep investors and the market informed of the Issuer’s ongoing business and management activities that occurred during the preceding month. Do not discuss goals or future plans unless they have crystallized to the point that they are “material information” as defined in the CNSX Policies. The discussion in this report must be factual, balanced and non-promotional.

MLK Gold Ltd. (“MLK” of the “Company”) carried out field exploration at its Highway 360 Lithium project in southern Newfoundland. Numerous pegmatite dikes were observed on the east end of the property with some pegmatites being up to 1.5 metres wide and containing coarse grained quartz and feldspar crystals up to 30 cm in length. There is still over 90% of the property left to explore. The

Company also carried out field exploration on its Manuels epithermal Gold Project in the Avalon Peninsula of Newfoundland. Executives from MLK Gold met with the planning committee from the Town of Conception Bay South to discuss upcoming plans for the project. The meeting was also attended by three representatives from the Newfoundland Department of Industry, Energy, and Technology who discussed general aspects of exploration and mining as applied under the Mineral Act and the Mining Act. Executives also researched drone geophysics and satellite seismic technology to assist on all its properties.

Management started work on preparation of the Q3 filing documents. The Company issued a news release that it was extending the last round of its warrants due to the delayed listing on the CSE.

Two assessment reports were finalized and submitted to the Newfoundland government.

Management pursued several avenues for financing its projects including JV and option arrangements.
