#### Report on Business

1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.

**The Company is a mineral exploration company focused on lithium, cesium and tantalum exploration in Canada, and led by a group of mining professionals with a history of creating shareholder value. It is currently exploring a critical minerals portfolio of lithium, cesium and tantalum projects in Northwestern Ontario.**

2. Provide a general overview and discussion of the activities of management.

**During the month of February 2024, the Company announced the assay results from 11 drill holes completed from the inaugural drill program at the Company's Falcon West Lithium Property in northwestern Ontario, Canada.**

**In addition, the Company announced the listing of its common shares on the Frankfurt Stock Exchange ("FSE") under the symbol "D0W."**

3. Describe and provide details of any new products or services developed or offered. For resource companies, provide details of new drilling, exploration or production programs and acquisitions of any new properties and attach any mineral or oil and gas or other reports required under Ontario securities law.

**On February 12, 2024, the Company reported assay results from 11 drill holes completed from the inaugural drill program at the Company's Falcon West Lithium Property, in northwestern Ontario, Canada. The drill holes intersected near-surface spodumene-albite pegmatite hosted lithium, cesium and tantalum mineralization which remains open for expansion.**

**This initial drilling was designed to test the five spodumene-bearing pegmatites discovered during the Company's 2023 exploration program which screened a small section of the large 13km<sup>2</sup> property. All 11 boreholes**

hit mineralization in the five known pegmatites, and hole FW23-07 intersected blind pegmatite from 47.4m to 59.1m.

The Company is currently finalizing its 2024 exploration program which will include diamond drilling, mechanized trenching, and further geochemical sampling.

For further details, please see the February 12, 2024 [news release](#).
