Report on Business

1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.

Hillcrest is focused on developing and delivering value from its clean energy technology business through the continued development and commercialization of its technologies with the intent of licensing, partnering and/or selling accessible or owned clean energy technology and IP.

On February 1, 2024, Hillcrest announced the completion of its ZVS-enabled power module prototype, positioning the Company to take advantage of a potential new revenue stream.

On February 9, 2024, Hillcrest announce the close of the first tranche of its previously announced non-brokered private placement in the amount of 2,530,000 units of the Company (the "Units") at a price of \$0.25 per Unit for gross proceeds of \$632,000 (the "First Tranche"). The total placement size, cumulative of all tranches, is anticipated to be a maximum of 8,000,000 Units for maximum gross proceeds of \$2,000,000 (the "Private Placement").

Hillcrest also announced an amendment to the terms of the Equity Facility announced on January 17, 2024. The Company and the third-party investor mutually agreed to increase the commitment fee to 4.9% of the total capital of the Company committed, payable in cash or Common Shares at a deemed price at the greater of the discounted market price permitted under the policies of the Canadian Securities Exchange (the "CSE") and 90% of the 10-day average closing bid price of the common shares on the CSE. In addition,

In addition, the Company has entered into a six-month marketing agreement with Stockhouse Publishing Ltd which is a wholly owned subsidiary of The Market Limited, an Australian publicly listed entity.

On February 27, 2024, Hillcrest the addition of Dan Mathieson as a strategic advisor to the Company. Mr. Mathieson will work with the Company's executive team to deliver new business expansion opportunities both domestically and internationally.

2. Provide a general overview and discussion of the activities of management.

Hillcrest's management continues its commitment as a clean tech innovation company developing high value, high-performance control systems and electric power conversion devices for next-generation powertrains, charging applications and grid-connected renewable energy generation and storage systems.

3. Describe and provide details of any new products or services developed or offered. For resource companies, provide details of new drilling, exploration or production programs and acquisitions of any new properties and attach any mineral or oil and gas or other reports required under Ontario securities law.

The Company has completed testing on its 350kW | 1,000V next generation EV inverter. This new EV inverter contains the Company's own power modules and is being used for advanced testing and demonstration programs with customers going forward.

The Company also completed testing on its 10kW | 800V grid-tied inverter proof of concept inverter. This grid-inverter proof of concept is being used to attract potential customers and joint development partners in the renewable energy generation and storage sectors.

4. Describe and provide details of any products or services that were discontinued. For resource companies, provide details of any drilling, exploration or production programs that have been amended or abandoned.

Not applicable.

5. Describe any new business relationships entered into between the Issuer, the Issuer's affiliates or third parties including contracts to supply products or services, joint venture agreements and licensing agreements etc. State whether the relationship is with a Related Person of the Issuer and provide details of the relationship.
