Humanoid Global Announces Closing of Strategic Investment in Agility Robotics

– NOT FOR DISSEMINATION IN THE UNITED STATES OR THROUGH U.S. NEWSWIRE SERVICES –

Vancouver, BC & Salem, Oregon – September 17, 2025 – **Humanoid Global Holdings Corp.** ("**Humanoid Global**" or the "**Company**") **(CSE:ROBO, FWB:0XM1, OTCQB:RBOHF)**, a publicly traded investment issuer focused on building and accelerating a portfolio of pioneering companies in the humanoid robotics and embodied AI sector, is pleased to announce that it has closed its indirect strategic investment in Agility Robotics, Inc. (**"Agility Robotics"**) via a single-asset special purpose vehicle.

The closing of the strategic investment in Agility Robotics represents Humanoid Global's entry into one of the global leaders in humanoid robotics and reflects its commitment to supporting category-defining technologies. This investment enhances Humanoid Global's portfolio with exposure to a company advancing the large-scale commercialization of humanoid robotics, with initial applications in logistics.

On September 10, 2025, Agility Robotics announced that NVIDIA participated in its Series C round through NVentures, NVIDIA's venture capital arm. The investment underscores the growing relationship between the two companies, with NVIDIA's simulation and AI technologies, including Isaac Lab, playing an important role in advancing Digit toward large-scale deployment across industrial and commercial environments.

"Agility Robotics is a pioneer in the humanoid robotics industry, being among the first companies to deploy a commercial fleet," said Shahab Samimi, CEO of Humanoid Global. "The participation of NVentures in its Series C round further reinforces confidence in Agility's ability to capture meaningful market share while addressing global labour shortages. This is not only innovation; it represents a scalable solution to a trillion-dollar challenge."

This news release contains "forward-looking information" and "forward-looking statements" (collectively, "forward-looking information") within the meaning of applicable securities laws. Forward-looking information is based on the beliefs, expectations, and opinions of management as of the date hereof, and includes, without limitation, statements regarding: (i) the Company's business plans, strategies, and objectives; (ii) the anticipated benefits of the Company's indirect investment in Agility Robotics; (iii) the expected growth, scalability, and commercialization of Agility Robotics' technology; (iv) the potential future market size and adoption of humanoid robotics and embodied AI; (v) broader industry trends, forecasts, and opportunities; and (vi) the completion of the Company's proposed indirect investment in Agility Robotics. Forward-looking information is often, but not always, identified by words such as "anticipates", "expects", "intends", "plans", "believes", "estimates", "projects", "potential", "possible", "likely", "may", "will", "should", or similar expressions.

Forward-looking information is subject to numerous known and unknown risks, uncertainties, and other factors that may cause actual results or events to differ materially from those expressed or implied by such information, including but not limited to: general economic conditions; risks associated with the emerging nature of the humanoid robotics and AI industry; technological risks and uncertainties; competition; reliance on third parties; the Company's ability to identify, structure, and execute investments; the performance of portfolio companies; risks inherent in holding and valuing private company securities; the availability of additional financing on acceptable terms or at all; the satisfaction of customary closing conditions relating to the Company's proposed indirect investment in Agility Robotics; regulatory risks, including those related to foreign investment and emerging technologies; and other factors set forth under "Risk Factors" in the Company's most recent filings on SEDAR+.

Although the Company believes that the expectations reflected in the forward-looking information are reasonable, no assurance can be given that these expectations will prove to be correct, and such forward-looking information should not be unduly relied upon. The forward-looking information contained in this news release is provided as of the date hereof, and the Company disclaims any obligation to update or revise any forward-looking information, whether as a result of new information, future events, or otherwise, except as required by applicable law.
