

ReSolve Energy engages Independent Trading Group as market maker

Montreal, Quebec, May 21, 2026 - ReSolve Energy Inc. (CSE: RESO) (“ReSolve” or the “Corporation”) announces that it has engaged the services of Independent Trading Group (“ITG”) to provide market-making services. ITG will trade shares of the Corporation on the CSE and all other trading venues with the objective of maintaining a reasonable market and improving the liquidity of the Corporation's common shares.

The initial agreement will commence May 21 for one month, in accordance with Canadian Securities Exchange (“CSE”) policies, and is renewable at ReSolve’s discretion. There are no performance factors contained in the agreement and ITG will not receive any common shares or stock options as compensation. ITG and the Corporation are unrelated and unaffiliated entities and at the time of the agreement and neither ITG nor its principals have an interest, directly or indirectly, in the common shares of the Corporation.

About Independent Trading Group

Independent Trading Group (ITG) Inc. is a Toronto based CIRO dealer-member that specializes in market making, liquidity provision, agency execution, ultra-low latency connectivity, and bespoke algorithmic trading solutions. Established in 1992, with a focus on market structure, execution and trading, ITG has leveraged its own proprietary technology to deliver high quality liquidity provision and execution services to a broad array of public issuers and institutional investors.

About the Corporation

The Corporation is focused on the development and commercialization of advanced biofuel and renewable energy technologies, as well as the exploration of natural hydrogen resources. The Corporation has engineered a proprietary, patent pending acid hydrolysis technology capable of converting residual biomass—including bark, demolition wood, and paper sludge—into three complementary renewable energy products: second-generation ethanol, industrial-grade lignin pellets, and electricity generated via integrated biomass cogeneration. A subsidiary of the Corporation, ReSolve Hydrogen, also owns 119 mineral exploration claims covering 6,613 hectares (66 km²) in Québec.

This news release includes certain “forward-looking statements” under applicable Canadian securities legislation. Forward-looking statements are necessarily based upon several estimates and assumptions that, while considered reasonable, are subject to known and unknown risks, uncertainties, and other factors which may cause the actual results and future events to differ materially from those expressed or implied by such forward-looking statements. Such factors include, but are not limited to, general business, economic, competitive, political, and social uncertainties, and uncertain capital markets. Readers are cautioned that actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements. The Corporation disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise, except as required by law.
