

GOLDEN GOOSE RESOURCES ANNOUNCES OTCQB LISTING

VANCOUVER, BC – February 10th, 2026 – Golden Goose Resources Corp. (the “Company” or “Golden Goose”) (CSE: GGR) (OTCQB: GGRFF) is pleased to announce the Company’s common shares (the “Shares”) have commenced trading on the OTCQB Venture Market (the “OTCQB”) at the market open today February 10th, 2026, under the symbol “GGRFF.”

The commencement of trading on the OTCQB is intended to expand the Company’s access to U.S. investors by providing an additional U.S. quotation venue for the Shares and to facilitate more efficient trading by U.S. broker-dealers, subject to prevailing market conditions. There will be no change to the Company’s trading on the Canadian Securities Exchange under the symbol “GGR”.

DTC Eligibility Status

The Company has applied for eligibility for electronic clearing and settlement through the Depository Trust Company (“DTC”) in the United States. DTC eligibility, once obtained, will facilitate seamless trading for U.S. investors via most broker-dealers. In the interim, trades may involve physical settlement, which could limit near-term liquidity. There can be no assurance that DTC eligibility will be obtained on acceptable terms or at all, or within any particular timeframe.

Management Commentary

Dustin Nanos, CEO of Golden Goose, commented: “Listing on the OTCQB Venture Market represents an important step in our capital markets strategy. This milestone enhances Golden Goose’s visibility within the U.S. investment community, improves liquidity, and broadens access for both existing and prospective shareholders. The Shares will continue to trade on the Canadian Securities Exchange (the “CSE”) under the symbol “GGR”.

About the OTCQB Venture Market

The OTCQB, operated by OTC Markets Group Inc., is designed for early-stage and developing companies in the United States and internationally. Companies listed on the OTCQB must be current in their financial reporting and complete an annual verification and management certification process, including meeting minimum bid price and financial standards. These requirements provide greater transparency and improved visibility for investors. The OTCQB is recognized by the United States Securities and Exchange Commission as an established public market that provides public information for the analysis and valuation of securities.

About Golden Goose Resources Corp.

Golden Goose Resources is a mineral exploration company focused on the discovery and advancement of high-quality mineral assets. The Company holds the right to acquire a 100% interest in the Gran Esperanza Project, covering approximately 44,000 hectares in Río Negro

Province, Argentina, as well as a 100% interest in the Goldfire Project, totaling 4,680 hectares in the Windfall Camp, Quebec, Canada, located near Gold Fields' Windfall deposit. Forward-Looking Information and Statements

This news release contains forward-looking information or statements (collectively referred to herein as "forward-looking statements"). Such statements are subject to risks and uncertainties that may cause actual results, performance, or developments to differ materially from those contained in the statements and are not guarantees of the future performance of the Company. No assurance can be given that any of the events anticipated by the forward-looking statements will occur or, if they do occur, what benefits the Company will obtain from them. These forward-looking statements reflect management's current views and are based on certain expectations, estimates and assumptions which may prove to be incorrect. Forward-looking statements involve known and unknown risks, uncertainties and other factors, many of which are outside the Company's control and which may cause actual results, performance or achievements to differ materially from those expressed or implied by such statements, including but not limited to: the potential inability of the Company to continue as a going concern; risks related to obtaining DTC eligibility or any delays therein; risks associated with liquidity and trading volume; and risks associated with potential governmental and/or regulatory action with respect to the Company's operations. Readers are cautioned not to place undue reliance on forward-looking statements for the reasons outlined above, as the expectations in the forward-looking statements may prove to be incorrect, and actual results may differ materially from those anticipated.
